

PUBLIC NOTICE

SOLE SOURCE PROCUREMENT

July 7, 2021

The City of Staunton decided to award a sole source award to Clear Communications for the repair and maintenance of the existing radio units within the City. The City's current radio communications system is exclusively manufactured by Motorola and Clear Communications is the only company licensed by Motorola within a reasonable distance from the City that can provide these services. The proximity of Clear Communications offices ensures the fastest possible response times with the least amount of service interruption during service outages. This proximity results in Clear Communications being the only practicably available source for these services pursuant to Virginia Code Section 2.2-4303 (E).

The City of Staunton intends, therefore, to enter into a contract with Clear Communications immediately to provide these services.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "C. Horvat", with a large, stylized flourish extending to the right.

Chad Horvat
Finance Business Manager
