

2023 Professional Engineering Services RFP # E00223

To: All Potential Offerors
Date: May 31, 2023
Subject: Addendum #1 to RFP #E00223 dated May 18, 2023
Title: 2023 Professional Engineering Services

Questions & Answers

Addendum #1 is issued only to address the following **Questions & Answers**. There are no changes or additions to this RFP.

1. Is there a page count maximum?

There are no prescribed limits or requirements regarding the size or formatting of proposals, beyond what is specified in the RFP.

2. Will the City execute the award as a new contract award which will replace the existing contract with the existing contract holders?

The City will execute a new contract with successful Offeror(s), which will be effective when the current contract renewal terms expire in August 2023. The current contracts will not be renewed if that firm is selected for a new contract.

3. How many contracts does the City intend to award?

The City does not have a target number of contracts established.

4. Does the City have a list of projects anticipated to be executed under this contract that you are willing to share at the RFP stage?

Potential projects in coming years include those listed in the most recent Capital Improvement Plan (available on the City's website); additional projects will likely emerge as unforeseen needs arise.

5. Does the City require designs/inspections, etc. to be per VDOT standards?

All projects involving VDOT funding, VDOT administration, and/or construction or analysis of City streets are to be per VDOT standards.
