

1,000 Books Before Kindergarten

A nation-wide early literacy program to promote reading to infants and toddlers and to encourage parent-child bonding through reading!

Reading has been shown to be associated with early academic success. Formal education typically does not begin until age 5 or 6. Thus parents and caregivers are the first teachers during the critical 0-5 years. The 1,000 Books Before Kindergarten challenge is a simple and very manageable endeavor. Read a book, any book, to your child, with the goal of reading 1,000 books before the child starts Kindergarten.
