

DEPARTMENT OF FINANCE

PUBLIC NOTICE

SOLE SOURCE PROCUREMENT

February 23, 2024

The City of Staunton has decided to award a sole source procurement to Intellisense Systems for the purchase of all Maintenance Plans, Services, Hardware, and Software Products that can be seamlessly integrated and are compatible with the AWARE Flood Sensor system currently being used throughout the City of Staunton.

A previous agreement with CIT in 2021 granted ownership of a number of AWARE flood sensors to the City on November 19, 2022 and continued utilization of Intellisense products and programming will allow the City to continue to use these sensors.

The Staunton Finance Department has determined that, pursuant to Virginia Code Section 2.2-4303 (E), Intellisense is the only company that meets or exceeds the needs of the City to continue to utilize the AWARE Flood Sensor System.

The City intends to contract with IntelliSense for continuing services, software, and equipment from this point forward.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "C. Horvat". The signature is fluid and cursive.

Chad Horvat
Finance Business Manager
