GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of Staunton
Virginia**

For the Fiscal Year Beginning

July 01, 2023

Christopher P. Morrill

Executive Director

**The Government Finance Officers Association
of the United States and Canada**

presents this

CERTIFICATE OF RECOGNITION FOR BUDGET PREPARATION

to

**Finance Department
City of Staunton, Virginia**

The Certificate of Recognition for Budget Preparation is presented by the Government Finance Officers Association to those individuals who have been instrumental in their government unit achieving a Distinguished Budget Presentation Award. The Distinguished Budget Presentation Award, which is the highest award in governmental budgeting, is presented to those government units whose budgets are judged to adhere to program standards

Executive Director

Christopher P. Monell

Strategic Areas

Infrastructure

This strategic area focuses on the foundational and physical framework, utility systems, and transportation network that supports the City of Staunton.

Economic Development

This strategic area affirms City Council's commitment enhancing the economic well-being and quality of life for the City of Staunton through attracting new industries in target areas and supporting the expansion and retention of existing businesses. This area also addresses housing and quality of life needs required to attract and retain a qualified workforce.

Responsive, Efficient Government

This strategic area focuses on the ways in which the city provides services, attracts and grows its employees, and fulfills City Council's goals.

West End

This strategic area indicates City Council's commitment to providing resources to Staunton's West End, to promote this community as an upcoming and vibrant area that has diverse business opportunities and great potential for economic growth.

Built Environment

This strategic area focuses on the city facilities owned and maintained by the City, with an eye on not only what is needed in the current environment but in the future as city space needs evolve and change.

OUR VISION

A culturally rich, historic city with an exciting future of innovation, growth and resilience.

You belong here!

OFFICE OF THE CITY MANAGER

March 28, 2024

Dear Mayor Claffey and Members of Council:

I submit to you, for your consideration, the City Manager's FY 2025 Proposed Budget for the City of Staunton for the fiscal year beginning July 1, 2024. As always, it is balanced and provides a spending plan for the next fiscal year, which will end on June 30, 2025.

The total FY 2025 Proposed Budget is \$148,269,045 for all funds, which is a reduction of \$5.5 million (-3.6%) over the adopted FY 2024 budget of \$153,791,956. Almost half of the total budget is the General Fund, proposed at \$73,230,288, a \$3.4 million (4.9%) increase over FY 2024.

The city is in a strong position, but that does not mean it comes easily or that difficult decisions are not ahead of us. We believe that this budget is designed to put the city in a positive position to address significant future needs and put us in a position of resilience and financial stability. We need to plan for what's ahead of us now. Therefore, it is more critical than ever to maintain our strong financial foundation, focus on long term financial health, be adaptable with our decision making, and agile in all our actions so that the city remains competitive and the best choice for those who want to live and do business here.

The FY 2025 proposed budget continues to focus on City Council's strategic priority areas such as the reserve set aside for **West End** revitalization, in addition to the city's investment in the West End with constructing its new Juvenile & Domestic Relations District Court in the former Chestnut Hills Shopping Center (**Built Environment**); focusing on **Infrastructure** by having a plan and funding in place to tackle critical and necessary infrastructure needs and adding staff who will manage those and other capital projects; being a **Responsive, Efficient Government** by continuing to address compensation disparities to attract and retain quality employees who provide city services to our residents and champion the city for those who visit; and, focusing on **Economic Development** by investing in infrastructure and continuing to actively market sites to potential companies and businesses at Staunton Crossing.

Finally, this budget fully funds Staunton City Schools. A successful and thriving school system is critical to the success of the city and we all want to continue to expand on the success and excellence already in place. The School Board and City Council adopted a formula in 2022 that will ensure that excellence now and in the future.

BUDGET SUMMARY

The budget comprises numerous governmental and proprietary funds. Governmental funds include the General Fund, Education Fund, Capital Improvement Fund, Debt Service Fund, and various special revenue funds for grant programs. Proprietary funds include the Water, Sewer, Parking, Stormwater and Environmental funds.

During the scheduled budget work sessions, staff will review the details of the proposed budget; some of the highlights include the following:

- This budget includes fully funding Staunton City Schools. There is \$1,286,439 in additional funding for City Schools, an 8.1% increase over FY 2024, honoring the funding formula approved by the School Board and City Council in 2022.
- This budget proposes fee increases in three areas to fund critical major capital and repair infrastructure projects now and in the future: Water Fund, Sewer Fund and the Stormwater Fund. These fees have not been increased for many years and the capital needs to take care of our most important infrastructure continue to grow. Further details are found later in this message.
- This budget fully funds debt payments for existing debt owed by the city.
- The proposed budget also starts to set the table for the city to operate an independent Juvenile & Domestic Relations (J&DR) District Court starting in late 2025. Currently, Staunton's J&DR District Court shares a facility with the Augusta County J&DR District Court, and the building is owned by Augusta County. In September 2021, the Commonwealth declared that the court facility was not in compliance with the requirements of Virginia State Code. In November 2022, Augusta County voters approved a referendum to relocate the County's Circuit and District Courts to Verona. As a result of the referendum, the City of Staunton needed to establish its own separate J&DR District Court. This budget includes five additional Sheriff's Deputies and other operational increases to start to support the new court facility. This budget also includes funds for future debt that will need to be issued for construction of the J&DR District Court. The exact amount of the required debt issuance is unknown at this time. The current planned term of the new debt issuance is 20-30 years, so this debt issuance may significantly affect the 10-year payout ratio, if the city needs to go with the longer term.
- This budget continues to focus on the city's commitment to ensuring that pay for our employees is and remains competitive, through a continued focus on compensation and classification study recommendations that were first implemented in FY 2024.
- The budget proposes to add several new positions that are mandated, support a new service, or address greater demands for a service already being provided: a part-time Office Services Assistant for the General Registrar, a Deputy City Engineer, a shared Radio Communication Manager to support the regional public safety radio project, the final two Water Treatment Plant Operators mandated by the Commonwealth, and five additional Sheriff's Deputies to support the new J&DR District Court facility. Details on these new positions can be found later in this message.
- Additional expenditures, driven by increases in the city's share of the cost of operations of regional entities, include the Central Shenandoah Health Department, Middle River Regional Jail, and Valley Community Services Board. There are also increases for several other agencies, including Valley Program for Aging Services, CAPSAW, Valley Children's Advocacy Center, and the Historic Staunton Foundation. Further details on these are found later in this message and can be found under the respective Functional Area they support.
- This budget continues to set aside three reserve funds that were established in the FY 2024 Adopted budget, each equivalent to one cent on the 2023 real estate tax rate, for three key City Council priorities: Uniontown Neighborhood Action Plan, West End revitalization and the Staunton Library's building and space needs. The usage of these reserves will be determined as each of these initiatives moves forward.

- Finally, unfunded departmental operational requests for FY 2025 total over \$1.4 million, which mainly consist of new equipment requests. In addition, there is \$1.6 million in unfunded personnel related requests for new full-time positions as well as a request for the city to participate in the Virginia Retirement System's hazardous duty multiplier retirement option.

REVENUES

City revenues are reviewed and developed by a team of staff, including the City Manager, Assistant City Manager, Chief Finance Officer, Commissioner of Revenue and City Treasurer. The team reviews revenues line item by line item, making projections on historical and currently trending amounts. In addition, the team discusses potential adjustments due to more recent trends, future known changes, and highlighted possible uncertainties. All of these factors influence the projections in this proposed budget.

General Governmental Revenues

Real Estate Taxes

The proposed budget keeps the tax rate at \$.89 per \$100 of assessed value. The city is in an off-assessment year and any new revenue is the result of new construction. Total new revenue is \$853,063.

The median assessed value of residential property for 2024 in the city is \$216,500. Foregone Agricultural and Forestal District real estate taxes total \$198,800. The city's housing rehabilitation abatement program results in forgone real estate taxes totaling \$145,800. The total cost of these two programs is \$344,600.

Other Local Taxes

In other local tax revenues, increases are projected in personal property taxes, in the amount of \$207,200; sales taxes, in the amount of \$350,000; BPOL taxes, in the amount of \$100,000; and meals taxes, in the amount of \$675,000. Transient occupancy tax revenue is projected to remain level with FY 2024.

State Funding

State funding is estimated at 18.1% of the General Fund budget, with a projected increase of \$272,850, totaling \$13.3 million. The largest categories of state aid are personal property tax relief, health and welfare, revenue for Constitutional Officers, and the Children's Services Act. The increase is driven by increased projections for aid to law enforcement, state funds for the library, and projected increases from the Compensation Board for the Constitutional Officers.

Federal Funding

Federal revenue accounts for \$1.2 million, only 1.6%, of the General Fund budget, and is expected to decrease by \$60,295, attributable to a decrease in funding for health and welfare programs.

PROPRIETARY FUNDS

In FY 2024, city staff reported that fee increases may be necessary in future fiscal years in order to fund significant capital needs to water delivery and sewer infrastructure and to fulfill stormwater requirements. After the budget was adopted last year, City Council was briefed by staff several times about each of these

needs. Therefore, this budget proposes increases in three areas: Water, Sewer and Stormwater. All fee increases will take effect July 1, 2024.

Water Fund – Proposed Fee Increase of 5%

It has been four years since water fees have been adjusted. And while the fee has remained stagnant, inflation has grown by over 20% for materials, supplies and construction. There are major capital needs to replace and repair the water infrastructure that cannot be funded and the city cannot adequately plan for future water infrastructure needs, all under the current rate. In addition:

- There has been a state mandate in place to add new positions for a Class 1 facility like Staunton's. The city started to add these in 2023, with the final two Water Plant Operator positions proposed in this budget.
- The five-year capital plan for water infrastructure totals over \$19 million and does not include construction costs for the North River Pipeline or Uniontown Water Line Extension. This means that there will be fee increases necessary in the future in order to accommodate these and other important projects in the future.

The fee is proposed to increase from \$3.86 to \$4.06. The impact on the minimum bi-monthly bill will be \$1.00. A household of four with average consumption will see an increase of \$2.80 per bi-monthly billing cycle, or \$16.80 annually. The increase is minimal because the Water Fund has a healthy fund balance to partially fund the capital budget in the next few years, with a plan to issue debt in order to fund future projects. The rate change would first appear on bills issued September 10.

Sewer Fund – Proposed Fee Increase of 15%

The sewer rate has not been increased in almost 12 years. And while the fee has not changed since then, inflation has increased by almost 30% for materials, supplies and equipment over this time. This fund also supports the city's share of the Middle River Wastewater Treatment Plant, the budget of which has seen a 65% increase since FY 2013. In addition:

- The current capital budget shortfall in this fund is over \$3 million, which means there will be a deficit of over \$1.6 million at the end of FY 2025.
- The current fund balance will not be enough to cover costs to replace/repair major sewer system infrastructure needs even in the short term.
- Over a five-year period, there are over \$4.8 million in capital needs, which does not include construction costs of Uniontown Sewer Extension. There will need to be future fee increases in order to accommodate these and other important projects in the future.

The fee is proposed to increase from \$4.88 to \$5.60. The impact on the minimum bi-monthly bill will be \$3.60. A household of four with average consumption will see an increase of \$10.08 per bi-monthly billing cycle, or \$60.48 annually. This fee increase is driven by more immediate needs and an inadequate fund balance to cover projects in the immediate future. And even with this fee increase, we still have to use fund balance to cover projects scheduled for FY 2025. The rate change would first appear on bills issued September 10.

Stormwater Fund – Proposed Minimum Fee Increase of \$1.80/month and a Credit System Reduced from Six to Two Tiers

In 2023, a study was initiated by the city and completed by Wiley|Wilson that quantified program expenses over the next five-year permit cycle, determined the appropriate rates to complete the program and offered structural modifications to the current program. In December 2023, Wiley|Wilson presented City Council with the study and a series of possible fee and other program changes that would help sustain the fund and provide a consistent source of revenue to accomplish the five-year cycle of projects that must occur in order

for the city to achieve its goals to minimize the discharge of pollutants into surface waters and to comply with mandates set forth by the Virginia Department of Environmental Quality. The total cost for stormwater capital projects through 2028 exceeds \$11 million, and includes restoration of Asylum Creek, retrofits at Green Hills ponds, various public/private BMP restoration projects and stream restoration at Staunton High School.

In this proposed budget, the minimum fee will increase from \$3.20 to \$5.00 per month, for up to 3,400 sq. ft. of impervious area, which covers most residential properties. The rates will be re-evaluated again with the new five-year cycle which starts in 2028. The city's stormwater fee has not been changed since 2010. Even with this fee increase, the stormwater capital budget is not fully funded and debt issuance may be required in FY 2027 and FY 2028.

Another proposed change is to the system of crediting. Staunton has in place a six-tiered system of credits to property owners who construct, maintain and operate stormwater quality and best management practices on their property. The current system does not require an annual renewal to maintain the credit and there is no maximum reduction. This has resulted in a 25% reduction in fee revenue rather than the typical 5%, and the current system puts an undue burden on residential property since most of this gain is realized by commercial customers with large impervious areas. **Therefore, this budget proposes reducing that to a two-tiered system of reductions and credits bringing the crediting system in line with other jurisdictions and easing the burden on residential customers.**

EXPENDITURES

Personnel

Compensation Adjustments

As with any service-based organization, the largest portion of the city's operating budget is devoted to personnel costs, including compensation and benefits. A stable and proficient workforce is the cornerstone of effective service delivery to the community. While the recruitment, development, retention and support of a skilled city workforce continue to be a strong priority in this budget, the City of Staunton, like most employers are still impacted by difficulties recruiting for positions and maintaining competitive salaries.

In order to ensure that the City of Staunton remains competitive in this tight labor market, the city completed a Classification and Compensation Study with Management Advisory Group in 2022. The goal of the compensation study was to provide the foundation for an appropriate classification and compensation system and pay plan based on current compensation levels for similar public sector employers, municipalities and local market competitors.

Therefore, with the recommendations of the Classification and Compensation Study in mind, the FY 2025 budget proposal includes a 3% cost of living adjustment for full and part time employees, effective July 1, 2024, at a cost of \$799,340, including benefits, for all funds.

The School Board approved a budget that includes a 3% pay adjustment for its employees, effective July 1, 2024.

Retirement

Beginning July 1, 2024, the Virginia Retirement System (VRS) will require participating employers to administer the Hybrid Retirement Plan defined contribution component more like a traditional defined contribution plan, more commonly referred to as the Hybrid Rate Separation. Employers will still pay a single defined benefit rate for all plan members. The defined benefit rate for the city decreased from 17.27% in FY 2024 to 16.77% in FY 2025. In addition, employers will need to budget the 1% mandatory contribution and their share of the match for an employee's voluntary contribution for all Hybrid Plan members. The estimated impact to the city's general fund is an additional \$28,000 as a result of the VRS Hybrid Rate Separation.

Health Care

While the proposed budget includes a 10% increase in health care costs for the city and to employee's premiums, the exact increase is unknown at this time and will not be known until later in 2024. It is hoped that the increase will be less than 10% and it's hoped the city can absorb the entire increase. Any employee-specific impact will depend on the insurance plan in which an employee is enrolled (point of service or high deductible health plan) and coverage under the plan (employee only, employee and spouse or family).

Education

Education remains one of the city's highest priorities and its largest single expenditure. The proposed transfer to the Education Fund from the General Fund, totaling \$17.26 million, accounts for 23.56% of the General Fund budget, and constitutes an increase of \$1,286,439 (8.1% increase) over FY 2024.

The Staunton School Board has adopted a total school budget of \$48,409,239, an increase of 3.9%, or \$1,825,794, over the adopted FY 2024 budget. The School Board adopted budget includes a local contribution that is balanced with the local contribution in the city's budget. The State's contribution is projected at this time and will be finalized once the State budget is adopted. There is a City Council/School Board joint budget work session scheduled for April 11, 2024.

Judicial Administration

Judicial administration operations are proposed to increase 23.4%, or \$673,146. This category includes Circuit Court, General District Court, Magistrate, J&DR District Court, City Sheriff, Victim Witness and Commonwealth Attorney. Some of this increase is attributable to a 3% cost of living adjustment for full and part time employees in the City Sheriff's Office on July 1, 2024.

The largest single increase in this functional area is for the City Sheriff with the addition of five new Sheriff's Deputies that will staff the new Juvenile & Domestic Relations District Court that will be online in late 2025. The budget for these positions is \$295,235 which includes salaries and benefits. The first two deputies will be recruited and hired after July 1 and are budgeted for the full fiscal year. The other three FTEs will be recruited and hired after January 1, 2025, so only a portion of the salaries and benefits are included.

Public Safety

Public safety operations are proposed to increase 3.0%, or \$475,225. This category includes Police, Fire, the E-911 center, Middle River Regional Jail, Shenandoah Valley Juvenile Center, Office on Youth,

building inspections, animal control and the Shenandoah Valley Animal Services Center. Much of this of this increase is attributable to a 3% cost of living adjustment for full and part time employees on July 1, 2024.

A portion of this increase, \$131,851 for the Middle River Regional Jail, is attributable to a higher population of inmates from the City of Staunton, which then increases our share of the jail, combined with a decline in the inmate populations from other localities.

A supporting outside agency to both Public Safety and Judicial Administration is Valley Children's Advocacy Center's. The Valley Children's Advocacy Center's contribution from the city is proposed at \$15,000, an increase of \$7,884. The Center is anticipating federal funding cuts and this increased contribution will help offset loss of revenue for their very important programs that serve so many children and families in our community. Their total request was \$30,000.

Health and Welfare

Health and Welfare operations are proposed to increase by 1.3%, or \$97,436.

The Central Shenandoah Health District \$25,206 increase is attributable to the city's share of a 5% and 2% salary increase spread out over the current and next fiscal year respectively, cost increases to the employee benefit program, and the increased cost of providing services.

The Valley Community Services Board (CSB) is requesting, for a second year, that city funds be banked to "stand up" a crisis receiving center/crisis stabilization unit and thus would not be used to support operational programs. As the budget is currently proposed, staff is not recommending funding their full request since the CSB is able to cover their operating costs since the local funds are being held in a capital reserve. While a facility like this is highly desirable and needed in our region, many questions remain about the cost and how the facility will be paid for. Staff continues to review information carefully as it is received and will update City Council accordingly. This budget includes a 10% increase over FY 2024, a total of \$271,842. Their full request was \$401,994.

Valley Program for Aging Services is proposed to receive \$30,000, an increase of \$4,000. This will allow the agency to expand programs that continue to serve more senior Staunton residents each year, such as the Staunton Café, Meals on Wheels, VPAS' transportation program and Medicare counseling.

Community Development

Community Development, which includes the departments of Community Development, Economic Development, and Tourism, is proposed to decrease by a net of \$6,055, or -0.2%. Included is a 3% cost of living adjustment for full and part time employees effective July 1, 2024. There is an additional \$55,671 for an enterprise permitting and licensing software that will help streamline those services in planning, inspections and stormwater engineering. There is also an increase of \$20,625 to fund the remaining portion of the Crossing Marketing Plan not covered by the city's American Rescue Plan Act funds.

Supporting the work of Community Development is the Central Shenandoah Planning District Commission. The FY 2025 proposed contribution, based on a funding formula of 83 cents per capita and other shared costs between the various partners, is \$132,294, a slight increase over FY 2024. The city's funds supports the work of the SAW MPO, the staff's work for the 21 local governments it serves for multiple planning purposes, the BRITE transit system and the Afton Express.

The Historic Staunton Foundaion (HSF) also provides support services to and partners with the City of Staunton through their work to maintain, protect and enhance Staunton's historic districts. Per an agreement put in place several years ago, the HSF makes available a staff person, resources, consultation and expertise to review all matters related to historic preservation matters in the City of Staunton. This proposed budget includes an increase of \$5,000 over FY 2024, for a total contribution of \$40,000. It has been several years since HSF was granted an increase and if the city had to do this on our own, it would likely resemble the creation of an entire city department, which would be much more costly and ineffective.

General Government

General Government Administration (including City Council, City Manager, City Attorney, Communications, Finance, Audit, Assessor, Information Technology, Human Resources, Registrar, Risk Management and two constitutional offices) is proposed to increase 8.1%, or \$587,369. A portion of this increase is attributable to a 3% cost of living adjustment for full and part time employees on July 1, 2024.

In Information Technology, there is a Radio Communication Manager added that will be the primary administrator for the SAW Regional Radio system, overseeing day-to-day operations of nearly 3,000 radios on a network of eight (8) antenna sites and three dispatch centers. This position is funded and shared by all three localities – Waynesboro, Staunton and Augusta County – of which Staunton's share is \$22,054, or 22% of the total cost of salaries and benefits.

The General Registrar's budget includes an additional part time Office Services Assistant, budgeted at \$19,550. This will ensure, especially when they are established in the future in a new permanent space outside of City Hall, that the office receives consistent coverage by a trained employee at all times. The additional staff will also address the continued growth of this office's workload, in the form of mandated standards and requirements by the Department of Elections, to ensure the election process is accessible to all and secure.

In the City Council budget there is a contingency added in the amount of \$50,000 for City Council to utilize and allocate during the fiscal year. City Council has had previous discussions about how they can support nonprofit agencies that serve the City of Staunton when the need arises. Not being dedicated to any specific agency or cause provides flexibility to City Council to make those decisions during the year. If this becomes part of the adopted budget, staff would draft a Council Procedure that addressees how decisions would be made regarding these funds.

In FY 2024, \$300,000 in attrition savings were budgeted in the Finance Department's budget. In FY 2025, this is budgeted in Nondepartmental since this really touches every city department. Therefore, while it looks like the Finance Department budget is increasing by \$300,000, it is not and simply reflects attrition, or vacancy savings, being budgeted elsewhere.

Public Works

Funding for Public Works and Engineering operations is proposed to increase by 5.5%, or \$360,356. A portion of this increase is attributable to a 3% cost of living adjustment for full and part time employees on July 1, 2024.

The Engineering Division includes funding of \$137,074, including benefits, for a new position – a Deputy City Engineer. There are currently 33 capital projects either under construction or in development phase

that have oversight by the Engineering Office, totaling over \$100 million in combined design and construction costs. Five (5) of these projects are VDOT-administered. In addition to these city initiated infrastructure/facility projects, there are seven (7) subdivision sites currently under construction, or soon-to-be, by private developers; these projects include the infrastructure to support a total of 169 new single-family lots, 22 new townhome units, and 166 new apartment units. It is the responsibility of the Engineering Office to ensure that all of these projects are designed and constructed to meet the city's interests and budget, and ensure that all is done according to the applicable standards, including any funding agency requirements. The Deputy City Engineer will provide much needed assistance in overseeing these projects and tasks. The City Engineer will delegate the oversight of specific projects and areas of internal department assignments to the Deputy City Engineer.

Separate from the General Fund, but under the purview of Public Works, are two new positions in the Water Fund. The Virginia Department of Health several years ago raised the staffing requirements for Class 1 waterworks like Staunton's. The new requirement is to have at least two operators at the plant at all times (24/7). Additionally, one of the operators needs to have a Class 1 license. For Staunton, this equates to four additional FTEs. This budget includes the final two FTEs that need to be added. The amount added to the FY25 budget these two positions are \$138,896, including benefits.

Recreation, Parks and Library

This functional area increases by 4.3%, or \$185,699. Much of this increase is attributable to a 3% cost of living adjustment for full and part time employees on July 1, 2024. The library is expecting an increase in State Aid to Libraries which will help fund the purchase of more books, and furniture and fixtures to improve the reference and study seating in the library.

FY 2025 CAPITAL IMPROVEMENT PLAN (CIP)

Proposed capital projects in FY 2025, totaling \$5,402,833, include the following:

Funded from Future Budget Amendment, \$2,891,050:

- \$350,000 Fire truck replacement reserve
- \$30,000 Fire & Rescue breathing apparatus
- \$10,000 Fire & Rescue cardiac monitor
- \$125,000 Bike and pedestrian project
- \$100,000 Greenways project
- \$41,050 Blue Ridge Community College capital share
- \$100,000 School capital reserves
- \$100,000 Ineligible streets/parking lots
- \$140,000 Adaptive traffic control
- \$375,000 CAD/RMS system replacement
- \$100,000 Sidewalks
- \$100,000 Public Works equipment fund
- \$100,000 Public Works building fund
- \$600,000 Moxie Stadium renovation
- \$100,000 Core network fiber replacement
- \$350,000 Replacement of retaining wall and supported sidewalk – West Johnson St.
- \$170,000 E911 Electrical upgrades and console replacement

Funded from FY 2025 General Fund Budget Transfer, \$861,783

- \$287,261 Public Library reserve
- \$287,261 West End revitalization reserve
- \$287,261 Uniontown neighborhood action plan reserve

Funded from CIP Reserves, \$100,000

- \$100,000 Uniontown property surveys

Funding from VDOT Reimbursable Funds, \$500,000

- \$500,000 Evaluation & Repair of North Madison St from West Frederick to North Jefferson

Funding TBD

- \$350,000 Maintenance for Gypsy Hill Park Pump House (\$131,000 funded from reserves)
- \$700,000 Gypsy Hill Park pool house improvements

DEBT

The city's total outstanding debt for governmental and proprietary funds, as of June 30, 2024, is well within the guidelines of the city's Debt Policy for all of the three required ratios. For the 10 Year Payout Ratio, FY2025 is the first year the city will achieve the minimum ratio of 50% since the issuance of the \$46 million debt for the Staunton High School renovation and addition. This debt issuance has a 30-year term, which significantly affected the city's ability to repay 50% of the current outstanding debt principle within 10 years. Outstanding debt for schools as a percentage of General Fund outstanding debt equals 82%, compared to 18% of General Fund outstanding debt before any new and future debt issuance.

The city will reduce its total outstanding debt by \$4.71 million in FY 2025 through principal payments; however, there is a planned debt issuance for known capital needs, such as separation of the Juvenile & Domestic Relations District Court from Augusta County. The exact amount of the required debt issuance is unknown at this time. The current planned term of the new debt issuance is 20-30 years, so this debt issuance may significantly affect the 10-year payout ratio, if the city needs to go with the longer term.

The budget includes \$6,753,119 for the debt service sinking fund, of which \$5,591,903 is a transfer from the General Fund and the remaining \$1,161,216 will be funded from the debt service sinking fund balance. These numbers may change after the bids for the courthouse are received, which is currently scheduled for April 2, 2024. Once the final required principal amount of bond proceeds has been set, then the exact term and repayment schedule can be determined. Final interest rates will not be set until May 1, 2024 when the bonds are sold.

BUDGET BALANCING

Budgets are all about choices. Staunton's budget process begins with the submittal of each department's budget request in December. Departments determine what resources they need to deliver quality services as efficiently as possible. Each department director has to justify the submitted budget request during subsequent budget review discussions. Ultimately, difficult decisions are made to balance the budget, based on an understanding of City Council's strategic priorities, sound financial and management principles and experience.

Unfunded departmental operational requests for FY 2025 total over \$1.4 million, which mainly consist of new equipment requests. In addition, there is \$1.6 million in unfunded personnel related requests consisting of requests for new full-time positions, new requests to upgrade part time positions to full time, and a request for the city to participate in the Virginia Retirement System's hazardous duty multiplier retirements option.

In addition to the majority of the FY 2025 CIP being funded with projected FY 2024 carryover, there is \$300,000 in vacancy savings budgeted up front, realizing that in the current environment, the city will experience this level of savings due to positions becoming vacant.

The complete list of **Unfunded Expenditure Requests** can be found later in this document.

ACCOMPLISHMENTS

It's exciting to share our year of successes and accomplishments in so many areas. Without naming them all, some of the highlights are below.

The city received several grants to help with our economic development efforts around the city and with continued restoration of our historic and vibrant downtown.

- The city was the recipient of a \$100,000 Industrial Revitalization Planning Grant through the Virginia Department of Housing and Community Development for the Arcadia Project to transform the former historic Dixie Movie Theater into an entertainment and educational center with a mission of connecting people through culture and creativity. This project expects to remit more than \$750,000 in new state and local tax revenue over 10 years. It will also provide needed space for Staunton's lively creative arts scene. To undertake the actual renovations, the project received an additional \$1.5 million Industrial Revitalization Restoration Grant.
- The city was the recipient of a FY 2023 Virginia Business Ready Site Program (VBRSP) grant in the amount of \$4,550,000 to elevate the Staunton Crossing project to a Tier 4/5 site. This grant will pay for construction of the wastewater collection system. A FY 2024 VBRSP grant for \$13.2 million has been submitted to fund the necessary water facilities for the eastern portion of the city including Staunton Crossing.
- The former Western State Hospital Steam Plant project received a \$99,000 planning grant in Virginia Industrial Revitalization Funds to assist with transforming the industrial structure to a restaurant and brewery. The activities undertaken in this planning grant will build upon the previous studies for adaptive reuse of the Steam Plant by finalizing the schematic design for the buildings and site, addressing the multiple engineering needs for the project, and developing cost estimates and a budget. A \$1.5 million Industrial Revitalization Restoration Loan application was submitted to the Department of Housing and Community Development to continue restoration efforts.
- The city is in its final year of the Environmental Protection Agency Brownfields Assessment Grant award in the amount of \$300,000 to continue the efforts to revitalize the West End community. The city has contracted for professional services to continue the implementation of the project.

The year also brought additional economic development and business activity in the city, including an express carwash, a new Sentara Primary Care facility, and Cookout all along Richmond Avenue. Next to Stan's Ski and Snowboard shop, Micah's Coffee opened their new location with drive through coffee services. Walmart added space to their building to accommodate grocery pick up services, and new

construction of a 5,969 square foot building at 1012 Richmond Avenue will create a new Firestone Complete Auto Care Center. Plans are in process for a new Dunkin' Donuts on Greenville Avenue in the former Wendy's location. Planet Fitness opened in the commercial strip on Greenville Avenue. Several new businesses opened at or near downtown including Latin Soul, Baby Opal, SolArt Center, Foxtails, Cosette Café, Kate's Mercantile & Co., and Bijou, in addition to the re-opening of Brick's Restaurant and Pub. And, 106 Industry Way in Green Hills was recently purchased and construction is underway for a new 40,000 square foot commercial manufacturing facility. Plans for an additional building of 60,000 square feet will follow creating a total of 100,000 square feet of new industrial space.

New housing opportunities are underway across the city. The renovation of 4,376 square feet of historic space on Lawyers Row were completed and the eight hotel-type suites opened. The Villages renovated a 10,681 square foot utility/storage facility and built a 12,530 square foot building to create 20 new apartments. The former Staunton Steam Laundry is being redeveloped into apartments and retail space the old Staunton Steam Laundry Building. At two stories with 29,298 gross square feet, this will become mixed occupancy to include 28 apartments and future retail or restaurant space (3,868 square feet). The Armory Building, which will be two stories with 12,293 gross square feet, will become 20 apartments.

Other apartment developments include Middlebrook Trace, consisting of two, three-story apartment buildings each consisting of forty-one units with a total of eighty-two new apartments to be located at 601 Moore Street; and, Middlebrook Trace II, a single, four-story apartment building consisting of forty-eight units and a common area with a total of 62,011 square feet to be located at 914 Middlebrook Avenue. Another new apartment complex to be located at 1013 Seth Dr. consisting of eight buildings housing 72 units will be known as The Hills.

As an entitlement community, the city receives annual Community Development Block Grant allocations to provide funding for public services, improvement of public facilities and infrastructure, homeowner-occupied rehabilitations, and the identification of homeless and special needs activities. With these funds, the city continued its efforts to provide more affordable housing and other services that benefit those who are income-challenged, the elderly, and those with special needs in our community. In its fifth year as a U.S. Department of Housing and Urban Development (HUD) entitlement community, the city received an allocation of \$319,410, directed to organizations providing services and housing rehab to low-to-moderate income families and infrastructure projects in their neighborhoods.

The city has many exciting infrastructure projects in the works or have been recently completed:

- The city was awarded \$5.93 million by the Virginia Department of Health Office of Drinking Water (ODW) to apply to the Gardner Springs Pump Station Upgrade project. These funds come from ODW's allocation of American Rescue Plan Act (ARPA) funds that are being distributed state-wide to 45 ongoing projects, totaling \$100 million. The project is currently under construction and is scheduled for completion in Spring 2025.
- The Rockway Street Water Line Replacement Project was completed, including the installation of approximately 900 LF of new 6" ductile iron water line to replace the existing 2" and smaller lines, which were leak-prone and undersized. This project was paid for using HUD CDBG funding.
- The Gypsy Hill Park Stream Restoration Project will soon be underway, half of which is funded by a Stormwater Loan Assistance Fund Grant and the other half with city ARPA funds, for a total project cost of \$1.7 million. This is an exciting project that, when completed, will stabilize stream banks and help prevent erosion, reduce the risk of flooding downstream, preserve historic trees,

improve aquatic habitat and generally enhance the aesthetics of the park. It will also account for approximately 10% of the total load reduction requirements to be achieved by 2028 per the current 2023-2028 TMDL Permit and Action Plan as mandated by the Chesapeake Bay Act.

The city had a very busy year as far as community development and planning initiatives, including a detailed and cohesive set of design guidelines for the City's Entrance Corridor Overlay Districts that was completed. The design guidelines are intended to assist property owners, developers, and contractors as they plan new development, redevelopment, or alterations to their properties. Through rezonings and special use permits, City Council also approved many private development projects. Two projects in particular that might have the greatest impacts are the city's first Solar Energy Facility on Commerce Road, and the redevelopment of the historic Coca-Cola Bottling Works on North Augusta Street to a micro-brewery and tasting room.

Utilizing funds from the American Rescue Plan Act (ARPA), the city worked with consultants to develop plans to address the needs of two important areas of the city: Uniontown and the West End.

- Uniontown Neighborhood Action Plan - The city completed, and Council adopted, the Uniontown Neighborhood Action Plan. Significant public input was received during the development of the plan. The plan establishes goals and objectives for the community, with a focus on areas of concern (i.e. preservation, revitalization, redevelopment, economic impact and infrastructure needs). The plan includes clearly articulated, action-oriented strategies for addressing the community's greatest development needs. City Council has already initiated action on several of these recommendations.
- West End Revitalization Strategy - The city began work on developing a revitalization strategy for the city's West End Community to evaluate existing conditions, identify revitalization needs and priorities, develop a vision and improvement strategy, and create a marketing approach. The public has been very active in project and the revitalization strategy is expected to be completed this summer.

Accomplishments and accolades in other areas of the city include the following:

- The Virginia Scenic Railway expanded capacity by adding a second railcar to their excursions.
- Staunton was named "The Shenandoah Valley's Best Kept Secret" by Garden & Gun Magazine; Beverley Street was named "One of the Best Main Streets You Need to Visit ASAP" by Country Living Magazine; and Staunton is "One of the Best Small Towns to Retire" by World Atlas.
- Hotel 24 South will celebrate 100 years in 2024.
- Holy Cross Presbyterian Church is renovating the former Dice's building on Frontier Drive for their new facility.
- The Staunton Augusta YMCA recently completed a new 4,000 square foot pavilion located at 575 New Hope Road to use as an activity center.

As evidence of the city's strong financial standing, the Finance Department received the Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA) for the FY 2024 budget. In order to receive the award, the budget document must meet GFOA criteria requiring that the document be a policy document, a financial plan, and an operations guide and serve as a communications device for the public.

Finally, I am so grateful to our employees who continue to provide effective and efficient services to the public we serve. I am proud of each and every one of them and what we are accomplishing each day together.

CLOSING COMMENTS

Budget development is shaped by a number of factors, including alignment with City Council's vision, values and strategic priorities, the city's financial policies, and principles of budgeting. Forecasting revenues and expenditures is difficult and requires staff to work with imperfect information. As current events demonstrate, budgeting, more so than ever, must be adaptable and agile in the face of unpredictability.

I want to thank the following individuals for their diligent work in preparing this budget: all the department heads and managers who developed their budget requests and then met in person to walk through their needs; Chief Finance Officer Jessie Moyers who worked tirelessly with me for months on end to put this budget together; Assistant City Manager Amanda Kaufman for her expertise and insights; John Blair and Robin Wallace in the City Attorney's Office for providing guidance and advice on the city's tax and budget ordinances; former City Assessor Charley Haney, Commissioner of Revenue Maggie Ragon and Treasurer Rick Johnson for their time and expertise in helping develop the revenue projections; and Morgan Smith and Josh Knight in the City Manager's Office for their numerous contributions, from development of the budget cover, to editing documents and preparing communications about the budget.

Finally, allow me to thank one more time the entire team of directors and staff of all the city departments and regional agencies for their tireless commitment and passion towards serving the Staunton community. None of this is possible without them.

Budget work sessions are scheduled for April 4, April 11, April 18 (tentative) and April 25, 2024. Public hearings on the budget ordinances and utility fee increases are scheduled for April 11. Budget adoption is scheduled for April 25. During Council's deliberations, staff will be prepared to provide assistance and additional information as Council works through the decisions necessary for adoption.

Respectfully submitted,

Leslie Beauregard
City Manager

City of Staunton, Virginia

Profile of the Government

The City of Staunton was settled in 1732 and later chartered as a town by the Virginia General Assembly in 1761 and the town was formally incorporated in 1801. The City was named for Lady Rebecca Staunton, wife of colonial Governor Sir William Gooch. Staunton was incorporated as a city in 1871. Staunton is the birthplace of the council-manager form of government. Staunton appointed its first city manager, and the nation's first city manager, Charles E. Ashburner, in April 1908.

History

A settler named John Lewis crossed the Blue Ridge Mountains in 1732 and built his home, Fort Lewis, about a mile east of what is today Staunton's city limits. Other settlers followed and a community began to form. Four years later King George II issued a royal land grant to William Beverley for 118,491 acres, including much of what is today Staunton and Augusta County.

In 1747, Beverley measured off a plot of land within his "manor", or estate for a community then called Mill Place. In 1761 that town was chartered by Virginia's General Assembly as Staunton. Throughout the Colonial Era, Staunton thrived in its role as seat for Augusta County, a county that at the time included much of what is today West Virginia, Ohio, Kentucky, Illinois, and Indiana. Staunton was the center of the larger Virginia of that time and a major-stopping point on the Great Philadelphia Wagon Road.

Staunton citizens organized their first volunteer fire department in 1790. The Virginia Central Railroad arrived in 1854 to make Staunton the transportation hub of western Virginia. In 1856, a son was born to Staunton's Presbyterian minister, a boy who was to become Staunton's most noted son, and twenty-eighth President of the United States, Woodrow Wilson. Staunton survived the Civil War with most of its buildings intact. In 1905 when the city population surpassed 10,000, the City was forced by state law to reorganize its government and install a board of alderman and common council. However, the new governmental structure didn't work for the city. After much study and debate, the city established a new form of government using a manager, a city manager to handle city administration. Staunton became the birthplace of the City Manager form of government, the standard government structure now used by thousands of cities across the nation and around the world.

The City was recognized by the National Trust for Historic Preservation in 2001 as one of the nation's "Dozen Distinctive Destinations," and in 2002 as a Great American Main Street City, the first Virginia city to be so honored.

The City of Staunton acknowledges that the City is included in the region of the ancestral and traditional lands of the Manahoac, Shawandasse Tula (Shawanwaki/Shawnee), and Monacan people, who historically inhabited the area.

City Governance

The City is governed by seven members of City Council for policymaking and legislative issues. Council members are elected at large for four-year terms. Council members elect the mayor. The city manager is appointed by City Council and is responsible for the general operations of the City and administering the policies and ordinances enacted by City Council. The city manager appoints all department directors for the various operating departments.

The Staunton City School Board is comprised of six members elected at large for four-year terms with the responsibility of the operation of the City school system. The School Board appoints a superintendent to administer the operations, policies, and procedures of the School Board. The local share of funding

for the school system is appropriated through the budget process by City Council and provided through a transfer from the General Fund to the Education Fund.

Other elected officials include the constitutional officer for the offices of; the Commonwealth Attorney, Sheriff, Treasurer, Commissioner of the Revenue, and Clerk of the Circuit Court. The Judges of the Circuit Court, the General District Court and the Juvenile and Domestic Relations Court are appointed by the Virginia General Assembly.

Staunton is an independent city with local government taxing power providing the full range of municipal services. These services include public safety, recreation, parks and culture, education, health and social services, public works and utilities, sanitation, planning and zoning, community development, judicial administration, and general and financial administration services.

Staunton is located at the intersection of I-81 and I-64 in the Shenandoah Valley of Virginia. The City is 90 miles west of Richmond, 85 miles north of Roanoke, and just 150 miles southwest of Washington D.C. The City encompasses an area of 19.98 square miles with a population of approximately 24,972.

Staunton is located within Augusta County and offers a total labor force of more than 100,000 within a thirty-mile radius of Staunton.

The City is located within 35 minutes of eleven colleges and universities: University of Virginia, James Madison University, Washington & Lee University, Virginia Military Institute, Mary Baldwin University, Bridgewater College, Eastern Mennonite University, Blue Ridge Community College, Piedmont Virginia Community College, Old Dominion University at the Blue Ridge Community College campus, and American National University at the Charlottesville and Harrisonburg campuses. The area also has several other specialized education centers: Shenandoah Valley Governor's School, four private high schools, and Valley Career and Technical Center for occupational trades/industrial education and training.

The City has multiple nationally recognized art and culture venues, including the American Shakespeare Center and the Heifetz International Music Institute, a nationally recognized historic downtown, and nine parks, including Montgomery Hall Park, which is listed on the National Register of Historic Places and the Virginia Landmarks Registry, with approximately 500 acres of park land for outdoor activities, athletics, festivals and cultural events. The City is located just twenty minutes west of the Blue Ridge Parkway and Skyline Drive for additional outdoor adventures for camping, hiking and biking trails.

Staunton has five historic districts and 23 individual buildings listed in the National Register of Historic Places and the Virginia Landmarks Registry. The Beverley, Wharf, Newtown, Gospel Hill and Stuart Addition historic districts capture much of the lifestyle and the distinctive architecture of the city's colorful past.

THE BUDGET PROCESS

The City's budget team consists of the City Manager, Assistant City Manager, and Chief Finance Officer (CFO). The budget team reviews the current status of the economy and develops budget guidelines based on City Council's long-term financial outlook, strategic plan, and other factors for the upcoming fiscal year. The City Council held a retreat in February 2024 to reaffirm its strategic plan for the upcoming fiscal year:

- Vision: a culturally rich, historic city with an exciting future of innovation, growth, and resilience.
- Values: integrity, inclusion and equity, excellence, engagement, and environmental consciousness.
- Strategic Areas: infrastructure, economic development, responsive and efficient government, West End, and built environment

The CFO prepares the guidelines, instructions, and the forms for departments to submit their expenditure budget requests. The CFO is responsible for preparing all governmental and proprietary revenue estimates for tax revenues, state and federal revenues, proprietary fund revenues, and other revenues. After meeting with all departments and prioritizing all budget requests for new personnel, new operating expenditures, and capital requests, the CFO prepares the revenue and expenditure budget and submits the preliminary budget to the City Manager for review. The City Manager is responsible for submitting the proposed budget to City Council for review and discussion.

By a resolution adopted by City Council on May 24, 2012, the City Finance Department provides comprehensive financial management and support services to the School Board, and is responsible for all financial processes, budget, and the annual audit for the City and Staunton City Schools. In 2019, the schools hired a Budget Director to prepare the schools budget with assistance and input given by the CFO. The Chief Finance Officer is appointed by the City Manager.

The City of Staunton and Staunton City Schools also share the School's Human Resources Department for recruitment and all personnel related processes and activities. The Chief Human Resources Officer serves as the department head of the human resources department for the Schools and the City. The Chief Human Resources Officer assists the budget team for the City and Schools with personnel budget requests relating to changes in staff requirements and employee pay increases. The Chief Human Resources Officer is appointed by the City Manager.

BUDGET CONTROL

Per City Code, the Chief Finance Officer serves as the budgetary control officer and shall assist the City Manager in developing and assembling the necessary information and planning and prioritizing financial commitments for the preparation of the annual budget. The City adopts a balanced budget for all funds. The *Code of Virginia* requires the City to adopt a balanced budget by May 15 for the School's Education Fund budget and June 30 for all other City funds. Budget control is maintained at the fund level. The City Manager, or designee, is authorized to transfer appropriations from any line item within each fund as needed to sufficiently fund any expenditure. All departments have on-line, real-time access to all line items within their operating budgets. Purchase orders for materials, supplies, and services are not released until adequate appropriations are available. Open encumbrances are reported as assigned or committed fund balances at the end of each fiscal year. City Council adopts an ordinance to approve budget amendments that require increased or decreased appropriations to the total adopted budget.

INTERNAL CONTROL

Financial management of the City requires the City to establish and maintain procedures to provide an internal control structure to safeguard the City's assets from theft or misuse of property. The internal control procedures are designed to provide reasonable assurance that the City's assets are protected. Reasonable assurance recognizes that the; cost of a control does not exceed the benefits derived, and the valuation of costs and benefits require judgement by management.

BUDGET CALENDAR

A summary of the budget calendar for adopting the City and School budget is provided below.

September- The Staunton City Schools' budget process begins in September each year with a budget memorandum distributed to each principal and administrative department with guidelines for requesting new programs and procedures for submitting an expenditure budget request.

October- The City's budget process begins in October each year with a budget memorandum distributed to each department and outside private and non-profit agencies requesting funding from the City. Budget guidelines and procedures are detailed in the budget memo.

November- School budget requests are due back to the School Budget Director in November. The budget team, consisting of the School Budget Director and the Superintendent of Schools, meets with all principals and administrative departments to discuss and review their budget requests.

December- The CFO reviews and develops revenue estimates for the school budget based on the state-aid funding from the Commonwealth of Virginia.

December-January -City budget requests are due back to the Finance Department in December. In December and January, the budget team meets with all departments to discuss and review their budget requests and request any further analysis or details.

February- After a review of all budget requests, the CFO prepares a total preliminary revenue and expenditure budget for each entity to review with the City Manager and Superintendent. Based on City Council's priorities and the School Board's goals and objectives, budget cuts and or revenue increases are proposed to achieve a balanced budget.

March- The proposed school budget is submitted to the School Board. After a public hearing on the school budget, the Board may change or approve the budget prior to submitting the budget to the City for Council's funding consideration.

March- The City's annual proposed budget is submitted to City Council prior to April 1st each year.

April- City Council conducts budget work sessions during the month of April, open to the public, to review and discuss the proposed revenues and expenditures and any proposed tax or utility rate increases. The public hearings on the budget ordinance and any rate increases are conducted during the month of April.

May- The budget is normally adopted by May 1st each year, and must be adopted by June 30. The school budget must be adopted by May 15th each year.

The FY2024 Budget was presented to City Council on March 23, 2023 and was adopted on April 27, 2023.

FUND TYPES AND BUDGETARY BASIS

The City budget is developed by fund using Generally Accepted Accounting Principles (GAAP). Each fund is considered a separate accounting entity with self-balancing accounts for assets, liabilities, fund equity, revenues and expenditures or expenses.

The City's budget includes governmental funds, special revenue funds, and proprietary funds. The budgets for governmental fund types are prepared based on the modified-accrual basis of accounting. Proprietary fund budgets are based on the accrual basis of accounting.

Major governmental funds include the General Fund, Debt Service Sinking Fund, and the Capital Improvement Fund. Expenditures are recorded when the related fund liability is incurred, and revenues are recognized when both measurable and available. The City records revenues received within 45 days of the end of the fiscal year.

The School budget includes the Education Fund, a governmental fund, which accounts for revenues and expenditures for the operations of the City's school system. The School budget includes other governmental funds for operations restricted to a specific purpose for revenues and expenditures; the Textbook Fund, the Cafeteria Fund, the School CIP Fund, and the State Operated Programs Fund.

Special revenue funds are non-major governmental funds and include the Blue Ridge Court Services Fund, Community Development Fund, and the State and Federal Grants Fund. Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed for expenditures for specified purposes. These budgets also use the modified-accrual basis of accounting to record revenues and expenditures.

Proprietary fund budgets are based on the accrual basis of accounting which records revenue when earned and expenses when a liability is incurred. Major proprietary funds include the Water Fund, Sewer Fund, Environmental Fund, and the Stormwater Fund. Non-major proprietary funds include the Parking Fund.

FINANCIAL STRUCTURE

Note* The FY2025 Budget does not have proposed appropriations for the Community Development Fund and the State and Federal Grants Fund.

FUND DESCRIPTIONS AND FUND STRUCTURE

GENERAL FUND EXPENDITURE CATEGORIES

General Fund: The General Fund accounts for all expenditures and revenues not otherwise included in the other funds. It has an annual appropriation. Any unexpended and unencumbered amounts at the end of the fiscal year revert back to fund balance. The City's general fund expenditure budget is divided into seven operating functions: General Government Administration; Judicial Administration; Public Safety; Public Works; Health and Welfare; Parks, Recreation, and Cultural; and Community Development.

General Government Administration includes the legislative, administrative, financial, legal, audit, tax assessment, risk management, technology, and voter/election operations. Legislative functions include City Council to adopt policies, ordinances, and resolutions that governs the City. City Council also appoints members to serve on the numerous agency and board committees. Administration includes the: City Manager's office responsible for the administration of all City functions, provides guidance to all City departments providing services to citizens, and complies with all of the City's ordinances, resolutions, and policies; the Human Resources Department for recruitment and personnel administration for the City and Schools; City Attorney for legal services for the City and Schools; the audit for the annual outside independent audit; and public communication for information to citizens. Financial administration includes the Finance Department for budgeting, accounting, purchasing, utility billing and administration, payroll, payables, risk management, investment and debt management for the City and Schools. Financial administration also includes the Information Technology Department, tax assessment from the City Assessor and Commissioner of the Revenue, tax collections by the City Treasurer, and voter registration and elections by the Electoral Board and Registrar's office.

Judicial Administration includes the operations for the City's court system and court-related services. The City has three courts; Circuit Court, General District Court, and shares the Juvenile-Domestic Relations Court with the County of Augusta. The Sheriff's office provides court security and serves warrants. This function also includes the operations for the offices of; the Commonwealth Attorney and the Clerk of the Circuit Court.

Public Safety includes law enforcement, animal control, emergency communications, emergency fire and rescue services, juvenile and adult criminal facilities, building inspection, and the City's Office on Youth. The Staunton Police Department provides law enforcement services including criminal investigations, patrol, animal control, and administers the Emergency 911 Center for emergency communications for police and fire/rescue services. The Staunton Fire and Rescue Department provides emergency fire and rescue services, the emergency operations center, and fire inspections and permits. The City also funds its share of the cost for several regional facilities including; the Middle River Regional Jail Authority for adult incarceration, the Shenandoah Valley Juvenile Detention Center for juvenile incarceration, the Shenandoah Valley Animal Services Center for animal shelter, and the Shenandoah Valley Office on Youth, shared by Staunton, Waynesboro, and Augusta County, serving the area's youth and families.

Public Works function includes; engineering for the City's infrastructure, street maintenance and construction, building maintenance of all City facilities, and equipment maintenance for the City's fleet of vehicles and equipment. Public Works also provides for the operations, maintenance, and capital for the City's enterprise funds for water, sewer, stormwater maintenance, parking, and solid waste and recycling program.

Health and Welfare services are administered and provided through Shenandoah Valley Social Services (SVSS) providing assistance to adults and children experiencing financial hardship, neglect and abuse. SVSS is a regional facility funded by the cities of Staunton and Waynesboro, and the County of Augusta. The City also funds its share of the public health department.

Parks, Recreation, and Cultural operations include funding for the Parks and Recreation Department, the Staunton Public Library, and contributions to various arts and culture agencies and programs. Services and activities provided by the Staunton Parks and Recreation Department include the maintenance of the City's nine parks and facilities, swimming pools, horticulture, community centers, athletic programs for adults and children, and recreational programs and trips for adults and children.

Community Development includes funding for planning and zoning, economic development, tourism, community development agencies, and the regional transit system.

Capital Improvements Program (CIP) Fund: The CIP Fund accounts for major capital outlays of the General Government and School Board. The City's Planning Commission reviews and approves a five-year program with an eye towards the City's financial policies. The City Council adopts the five-year program but appropriates funding for the first year of the five-year program only. Thus, the five-year program is reviewed and adopted every year to ensure that needs are addressed in relation to the City's most current fiscal environment.

ENTERPRISE / PROPRIETARY FUNDS

Parking Fund: The parking fund accounts for the revenues and expenditures, including capital improvements program, for City's Parking facilities. The City's Planning Commission also reviews and recommends to the City Council a five-year CIP. The City Council adopts both the operating budget and CIP through an Ordinance. The Parking fund five-year program is also reviewed and re-adopted each year.

Water Fund: The Water Fund accounts for the revenues and expenditures, including capital improvements program, for City's water production and distribution needs. The City's Planning Commission also reviews and recommends to the City Council a five-year CIP. The City Council adopts both the operating budget and CIP through an Ordinance. The Water fund five-year program is also reviewed and re-adopted each year.

Sewer Fund: The Sewer Fund accounts for the revenues and expenditures that relate to the operations of the City's sewer system. The City's Planning Commission also reviews and recommends to the City Council a five-year CIP. The City Council adopts both the operating budget and CIP through an Ordinance. The five-year program is also reviewed and re-adopted each year.

Environmental Fund: The environmental fund accounts for the operational revenues and expenditures of the environmental fund for refuse collections and street cleaning for the City. The City's Planning Commission also reviews and recommends to the City Council a five-year CIP. The City Council adopts both the operating budget and CIP through an Ordinance. The Environmental fund five-year program is also reviewed and re-adopted each year.

Stormwater Fund: The Stormwater Fund accounts for the operational revenues and expenditures, including capital improvements program, for the City's stormwater management program. The City's Planning Commission also reviews and recommends to the City Council a five-year CIP. The City Council adopts both the operating budget and CIP through an Ordinance. The five-year program is also reviewed and re-adopted each year.

COMPONENT UNITS

School Board: The School Board is a publicly-elected body consisting of seven members. A chairperson and a vice-chairperson is elected by the members. The School Board has jurisdiction over the administration of the City's pre-Kindergarten to High School education system, and other ancillary activities. The School Board sets its own budget and requests an annual transfer from the General Government. Excess of revenues over expenditures remain in each of the School Board funds and is available for their use in future years. The School Board does not have the ability to raise taxes or issue debt. All debts are issued by the General Government and associated debt service payments are budgeted by the General Government. The School Board established three funds to account for its operations:

- **Operating Fund** – The Operating Fund accounts for all expenditures and revenues that pertain to the operation of the City's pre-Kindergarten to High School education system and not otherwise included in the other funds
- **Community Service Fund** – The Community Service Fund accounts for all expenditures and revenues that relate to the operation of a daycare, the television access programs and other community education programs
- **Food Service Fund** – The Food Service Fund accounts for all expenditures and revenues relating to the provision of food and beverages to the students of the City.

GENERAL FUND DEPARTMENT / FUND RELATIONSHIP

FY2025 CITY OF STAUNTON – GENERAL FUND DEPARTMENTAL DESCRIPTIONS

City Attorney - Provides legal advice and representation to the Mayor, City Council, City Manager, other city officials, and employees on a broad range of issues.

City Council - The Staunton City Council comprises seven members who are elected by City voters and empowered by the City Charter and the Code of Virginia with the responsibility of establishing laws in the city, adopting an annual budget and setting tax levels to fund maintenance of the city infrastructure, schools, public safety and other functions. Members of Staunton City Council serve four-year terms and have alternating tenures.

City Assessor - The Assessor's Office ensures that the burden of real estate taxation is distributed fairly among all property owners in the City consistent with the laws of the Commonwealth of Virginia. The assessor values approximately 11,500 real estate parcels in the City, which have a combined value of more than \$2.2 billion. All real estate in the City of Staunton is reassessed every two years in the odd-numbered years. Assessments carry an effective date of January 1. The value of new construction or renovation work is added every year.

City Manager - The City Manager is appointed by City Council to manage all City departments and the day-to-day operations of the City of Staunton. It is also the duty of the City Manager to develop an annual City budget to present to City Council for review and adoption each year. The city manager's office includes an Assistant City Manager, Executive Assistant, Engagement and Communications Manager, and Clerk of Council.

Clerk of the Court - Serves as the recorder of deeds, decides certain issues of probate, issues marriage licenses, creates court records, and certifies and archives all records of the Circuit Courts and other records as provided by law.

Clerk of the Council - Prepares and maintains the official records of the city and serves as the administrative support to the legislative body.

Commissioner of the Revenue - Oversees the appraisal and assessment of all real property in the city, administers the city's real estate tax relief program, assesses individual and business personal property, issues business licenses, and administers local taxes on meals, lodging, admissions, cigarettes, utility services, and mobile communications.

Commonwealth's Attorney - Prosecutes all criminal and serious traffic offenses which occur within the City of Staunton.

Community Development - Guides the growth and development of the City of Staunton in an effort to enhance the quality of life in our community. The Department is responsible for reviewing, developing and administering plans that reflect the City's interest in the preservation of historic resources; protection of the environment; and the provision of efficient design while recognizing the City's unique and natural features alongside the implementation of public facilities, services, and the effective utilization of the City's resources. Functional areas include Building Services, Planning & Zoning, Environmental Programs and Housing.

Economic Development - Helps bridge public and private sector development in an effort to create jobs, increase revenue, and enhance Staunton's quality of life over the long term.

Fire & Rescue - Staunton Fire & Rescue provides round-the-clock fire suppression, emergency medical service, and special response operations to the city's 20 square miles, parts of Augusta County that immediately surround the city, and the campus of Mary Baldwin University. The department also provides public safety education and programming, and fire permits and fire inspections for homes, schools and businesses.

Finance - Performs all financial functions (except tax assessments and treasury functions) including centralized accounting, centralized processing of payroll, accounts payable, utility billing, utility collections, and fiscal administration of city enterprises.

Human Resources - The Department of Human Resources provides shared, quality services to the City of Staunton and Staunton City Schools by administering a comprehensive program with a focus on attracting, retaining and motivating a high quality, diverse workforce.

Information Technology - Information Technology (IT) is responsible for meeting the information technology needs of the City of Staunton. The department maintains a metro area network supporting more than 30 locations throughout the City, connecting PCs, servers and telecommunication systems. IT establishes and maintains connectivity standards for the user community, monitors compliance with existing use policies, and advises the City Manager and City Council on issues related to technology. The department supports the City's web site, computing and telecommunications infrastructure, Geographic Information Systems (GIS), facilitates and conducts training for employees, and provides technical assistance in the purchase of hardware and software for individual users and departments.

Parks and Recreation - Enhances the lives of our citizens by providing a diverse package of recreation and park opportunities. Department oversee and maintains park facilities throughout the City of Staunton.

Police - The Staunton Police Department (SPD) is an internationally accredited, full-service law enforcement agency dedicated to serving the citizens of the City of Staunton. The department operates the City's state-of-the-art Enhanced-911 Center, which serves as the primary answering point for the City's 911 calls and dispatches calls for service for police, fire and the Staunton-Augusta Rescue Squad. The SPD also sponsors a number of crime prevention initiatives, including Virginia Rules, mentorship, and School Resource Officer programs for the area's youth; a Citizen's Police Academy; and Neighborhood and Business Watch programs.

Public Works - Provides project design, contract administration, and construction supervision and inspection for various public works projects. It also oversees the street lighting, sidewalk maintenance, tree trimming, street maintenance, and the Public Works Capital Improvements Program. The Public Works Department also oversees trash collection, street paving, water treatment and the city's engineering functions. Public Works is the City's largest operational department and oversees the largest budget.

Registrar - Ensures that the opportunity to register and vote is available to all eligible residents. The General Registrar conducts registration and elections as required by the Virginia Constitution, Code of Virginia, and directives of the State Board of Elections and the City of Staunton's Electoral Board.

Sheriff - Provides a responsive, coordinated, composite, city-wide Sheriff's Office; independent yet supportive of other law enforcement agencies; preserves law and order; meets goals and objectives of the office; provides security and safety services in the most efficient and effective manner.

Social Services - The Shenandoah Valley Social Services (SVSS) provides human services assistance to citizens experiencing financial hardship, neglect and abuse in Staunton, Waynesboro and Augusta County. The mission of SVSS is to promote self-reliance and the protection of citizens through community-based services.

Tourism - The Staunton Convention & Visitors Bureau (CVB) increases awareness of the City of Staunton as a visitor destination through a collective sales and marketing approach that stimulates overnight stays, enhances visitor spending and ultimately produces a substantial economic impact for the City of Staunton. The Staunton CVB provides information and coordination to group tour operators, meeting planners, travel writers and film scouts.

Treasurer - Collects and disburses all city funds, which includes accurate record keeping of all transactions, follow-up collection efforts concerning delinquent accounts, maintenance and reconciliation of bank accounts, investment of idle funds, and the collection and transmittal of state funds to the Virginia Department of Taxation.

FINANCIAL AND DEBT MANAGEMENT POLICIES

BUDGET

1. The City of Staunton will adopt a balanced budget for all funds. A balanced budget requires that the budgeted revenues and budgeted expenditures are equal for each fund.
2. The Chief Finance Officer serves as the budgetary control officer and shall assist the City Manager in developing and assembling the necessary information and planning and prioritizing financial commitments for the preparation of the annual budget.
3. Budget control is maintained at the fund level. The City Manager, or designee, is authorized to transfer appropriations from any line item within each fund as needed to sufficiently fund any expenditure.
4. All City department directors have online, real-time access to all operating expenditure and capital line items within their department budget. All line items include the budget, encumbrances, and detailed expenditure information.
5. Encumbrances for materials, supplies, and services are not released until adequate appropriations are available.
6. The Chief Finance Officer prepares monthly financial reports showing not less than the budgeted anticipated receipts, actual receipts, appropriations, encumbrances and expenditures through the month for which the report was prepared. Such reports shall be available and provided to the City Manager and Council by the second Thursday of each month. Special financial reports are prepared by the Chief Finance Officer upon the request of the City Manager or the Council.
7. The City and School's financial information which includes the budget, revenues, and expenditures is available on the City website for access to the general public.
8. The budget provides for employee position control at the fund level. The total number of full-time employee positions for all funds is authorized in the adopted budget. The approved City Pay and Classification system for employee wages effective for the budget year is authorized and published in the budget document.
9. The City may amend the adopted budget during the fiscal year to appropriate additional revenues and expenditures, or decrease appropriations, as needed. Any budget amendment that exceeds one percent of the total revenue in the adopted budget requires a public hearing notice to be published seven days prior to the meeting date for action on the amendment. The amendment may be approved after the public hearing is conducted.
10. The City will comply with all sections of the Virginia State Code pertaining to the budget process.
11. The City adopted budget includes all City and School funds.

CAPITAL IMPROVEMENT PLAN

The City approves a multi-year Capital Improvement Plan, (CIP), and budget each year. The approved CIP and budget include the City CIP and the School CIP. The City and School CIP budgets are appropriated each year by Council. The CIP funds are designated as multi-year funds in the accounting system and automatically carry forward the project balances to the next fiscal year for completion of the projects. Council is not required to re-appropriate funds each year for the balance of the same project appropriation.

The CIP is a five-year capital plan updated annually to account for project estimate updates, new and revised projects, and completed projects.

The annual update to the CIP begins in October each year. The plan is presented to City Council and the Planning Commission in December each year. The plan is adopted in April during the budget process.

The draft CIP plan is presented to City Council and the Planning Commission for review and suggestions. The Planning Commission will make recommendations and accept the CIP based on the City's Comprehensive Plan. City Council approves the CIP after the Planning Commission's recommendations, and any other changes.

The CIP includes the funding sources for the proposed capital projects each year of the five-year plan. Funding sources are based on a five-year financial analysis of revenues and expenditures.

Once a project is completed, the balance of any remaining appropriated funds for the project is transferred to the CIP Undesignated Account to be held as contingency for other projects. Council approves the transfer of funds. Any transfer of appropriated funds from one project to another requires approval from City Council.

The City collaborates with the School Board to incorporate the School CIP and develop financing plans to pay for major improvements or renovations to school facilities.

The City prefers to finance capital projects with cash, or 'pay-as-you-go' funds, and federal and state grants.

The City may use debt financing for projects by issuing general obligation or revenue bonds to finance projects. Any project requiring debt financing shall have a useful life equal to the term of the bond and adhere to the City's Debt Policy ratios and guidelines.

DEBT POLICY

The Debt Policy provides guidance and criteria for the issuance of debt so the City will not exceed affordable levels of indebtedness. This policy is intended to ensure debt is issued and managed prudently in order to maintain a sound fiscal position and protect the City's credit quality:

1. The City will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues except when approved justification is provided.
2. When the City finances capital improvements or other projects by issuing bonds, or entering into capital leases, it will repay the debt within a period not-to-exceed the expected useful life of the project.
3. When feasible, the City will explore the usage of special assessment, revenue, or other self-supporting bonds instead of general obligation bonds.
4. The City will retire tax anticipation debt, if any, annually, and will retire bond anticipation debt within six months after completion of the project.

DEBT RATIOS

The following debt ratios will be measured annually and will be measured as part of the debt issuance process. If the issuance of new debt causes the City not to be in compliance with one or more of the policies, staff must request an exception from City Council stating the justification and expected duration of the policy exception:

1. Direct net debt as a percentage of estimated assessed value of taxable property should not exceed four percent (4.0%). "Direct net debt" is defined as any and all debt that is tax-supported.
2. The ratio of debt service expenditures as a percent of total governmental fund expenditures should not exceed fifteen percent (15%).
3. Payout of aggregate outstanding tax-supported debt principal shall be no less than fifty percent (50%) repaid in 10 years.

FUND BALANCE POLICY

1. The City of Staunton will establish, at June 30 each year, a Safety Net Reserve, categorized as Committed Fund Balance, for all major operating funds equal to sixteen and one-half percent (16.5%), of the subsequent fiscal year total adopted expenditure budget for those operating funds.
2. All major funds include: General Fund, Water Fund, Sewer Fund, Environmental Fund, and the Stormwater Fund.
3. Financial circumstances allowing the use of the Safety Net Reserve to be appropriated for expenditures by City Council include:
 - a. Unanticipated natural disasters resulting from storm damage, unseen infrastructure damage for water and sewer system deterioration, bridge repair, etc., exceeding \$100,000 in damage.
 - b. Imposition of mandates by Federal and State governments such as, water, sewer and landfill regulations, construction of court and jail facilities, etc., exceeding \$100,000 in costs.
 - c. Court decisions resulting in unbudgeted expenditures, in excess of \$100,000.

- d. Acts of terrorism against the City destroying the City's infrastructure or causing a financial hardship to provide services to citizens, in excess of \$100,000.
4. The Safety Net Reserve will not be available for appropriation due to a general economic slowdown or recession. The City shall adjust its revenues and expenditures according to the economic conditions.
5. Funds used from the Safety Net Reserve shall be appropriated through the annual budget ordinance or by a budget amendment ordinance approved and adopted by City Council.
6. In the event the Safety Net Reserve or a portion of the reserve is used, the City will restore the Safety Net Reserve to the fifteen percent level within thirty-six months. If restoration cannot be accomplished within such time period without severe hardship to the City, the Chief Financial Officer will prepare a financial plan to restore the reserve to the fifteen level.

In no event, will the Safety Net Reserve be less than the amount calculated at June 30, 2023, equal to \$11,523,414, (FY2024 General Fund Adopted Budget = \$69,838,873 times 16.5%).

Funds in excess of the Safety Net Reserve, the General Contingency amount, and carry forward appropriations unexpended at fiscal year-end, shall be given first consideration for appropriation in the City's Capital Improvements Fund. Such appropriation shall be in the form of a budget amendment to the subsequent year's budget.

Any funds in the Education Fund in excess of the annual expenditures for any year ending June 30 shall be given first consideration for appropriation to the Education Fund Capital Improvement Fund. Such appropriation shall be in the form of a budget amendment to the subsequent year's budget or approved through the annual budget adoption procedures.

CONTINGENCY RESERVE

The City shall establish a General Contingency amount for the General Fund equal to \$250,000, categorized as Unassigned General Fund Balance, to provide for unexpected declines in budgeted revenues or unanticipated emergency expenditures.

FUND BALANCE CLASSIFICATION POLICY

Committed Fund Balance:

Committed fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of City Council. Formal action includes the adoption of the annual City Budget Ordinance or adoption of budget amendment ordinances during the course of the operating year.

Assigned Fund Balance:

Assigned fund balance includes amounts constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The Chief Finance Officer is delegated the authority to assign fund balance for specific purposes.

Restricted Fund Balance:

Restricted fund balance includes amounts that have constraints placed on their use by external sources such as creditors for debt covenants, grantors, contributors, or laws or other regulations of other governments. Restricted fund balance can also be imposed by law through constitutional provisions or enabling legislation. The source of the constraint is outside the government and cannot be changed by City Council.

Nonspendable Fund Balance:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form such as inventories, property acquired for resale, prepaid amounts, or are amounts that are legally or contractually required to be maintained intact.

Unassigned Fund Balance:

Unassigned fund balance consists of amounts not assigned to other funds, or restricted, committed or assigned within the same fund. Unassigned fund balance includes all spendable amounts not contained in the other classifications and are technically available for any purpose.

A history of the General Fund year end fund balance by classification for the fiscal years 2013-2023 is stated below:

GENERAL FUND - FUND BALANCE HISTORY						
Year Ended June 30	Nonspendable	Restricted	Committed	Assigned	Unassigned	Total
2023	\$ 121,993	\$ 967,138	\$ 11,523,414	\$ 2,970,571	\$ 9,554,873	\$ 25,137,989
2022	111,400	1,002,931	10,756,835	2,724,344	6,479,724	21,075,234
2021	103,947	230,914	9,571,866	2,792,804	9,587,197	22,286,728
2020	100,048	242,949	8,738,079	2,118,052	6,366,059	17,565,187
2019	97,630	250,953	8,891,250	2,346,271	4,630,500	16,216,604
2018	198,490	15,219	8,489,250	2,221,017	4,605,965	15,529,941
2017	475,098	25,401	8,137,500	2,516,915	2,632,596	13,787,510
2016	103,252	15,825	7,295,960	2,790,139	2,106,836	12,312,012
2015	78,126	117,646	6,607,250	2,762,575	2,364,510	11,930,107
2014	95,561	122,452	5,777,532	2,152,899	3,386,768	11,535,212
2013	58,666	120,217	5,178,250	2,089,799	3,472,715	10,919,647

LONG-TERM FINANCIAL PLANNING

The Staunton Plan was reaffirmed by City Council during their retreat on February 9, 2024. The Staunton Plan includes five focus areas, called strategic areas, that guide what work should be prioritized: Infrastructure; Economic Development; Responsive, Efficient Government; West End; and, Built Environment. There are also actions identified within the strategic areas. In addition, City Council established core values from which to base our daily operations. These values include integrity, inclusion & equity, excellence, engagement, and environmental consciousness.

Economic Strategy – The City’s long-range economic strategy is to attract new commercial, manufacturing, and retail businesses and expand existing businesses. This strategy will strengthen, diversify, provide employment growth, increase the median household income level, and sustain and increase the local tax revenue base to provide quality governmental services to the citizens of Staunton.

City Safety Net Reserve – The City’s fund balance fiscal policy, as revised by City Council, now requires a reservation of 16.5% of the City’s total general fund operating budget as a cash safety net reserve, reported as committed fund balance in the general fund. The primary government reserve is currently \$11,523,414. These funds can be used only for major catastrophic events that would affect the public safety or major infrastructure of the City, or imposition of mandates by Federal and State governments. The City also adopted a policy to establish and maintain a contingency reserve in the amount of \$250,000, reported as unassigned fund balance in the general fund, to provide for unexpected declines in budgeted revenues or unanticipated emergency expenditures.

Capital Improvement Plan (CIP) – The City approves a multi-year capital improvement plan and budget each year. The approved CIP plan and budget includes the City CIP and the School CIP. The City and School CIP budgets are appropriated each year by Council. The CIP funds are designated as multi-year funds in the accounting system and automatically carry forward the project balances to the next fiscal year for completion of the projects. Council is not required to re-appropriate funds each year for the balance of the same project appropriation.

The CIP is a five-year capital plan updated annually to account for project estimate updates, new and revised projects, and completed projects. The annual update to the CIP plan begins in October each year. The plan is presented to City Council and the Planning Commission in December each year. The plan is adopted in February during the budget process. The draft CIP is presented to City Council and the Planning Commission for review and suggestions. The Planning Commission will make recommendations and accept the CIP based on the City’s Comprehensive Plan. City Council approves the CIP after the Planning Commission’s recommendations, and any other changes The CIP includes the funding sources for the proposed capital projects each year of the five-year plan. Funding sources are based on a five-year financial analysis of revenues and expenditures.

Once a project is completed, the balance of any remaining appropriated funds for the project is transferred to the CIP Undesignated Account to be held as contingency for other projects. Council approves the transfer of funds. Any transfer of appropriated funds from one project to another requires approval from City Council.

The City collaborates with the School Board to incorporate the School CIP and develop financing plans to pay for major improvements or renovations to school facilities.

The City prefers to finance capital projects with cash, or ‘pay-as-you-go’ funds, and federal and state grants. The City may use debt financing for projects by issuing general obligation or revenue bonds to finance projects. Any project requiring debt financing shall have a useful life equal to the term of the bond and adhere to the City’s Debt Policy ratios and guidelines.

Glossary and Acronyms

Adopted Budget

A financial plan for estimated revenues and expenditures adopted by City Council for the fiscal year for all funds.

Ad Valorem Tax

A tax calculated and levied on real and personal property according to the value of the property assessed.

Agriculture and Forestry Districts

Land districts established through zoning ordinances used solely for the production of agricultural and forestal products. The City has four agricultural and forestal districts.

Amortization

The reduction of debt through regular determined payments of principal and interest to retire the debt at the maturity date for the debt.

Annual Comprehensive Finance Report

Annual Comprehensive Financial Report (ACFR) The official fiscal year financial report completed after the City's audit from independent auditors.

Appropriation

A legal authorization adopted by an ordinance by City Council to expend or incur obligations for the government operations.

Assessed Value

The value determined for real estate or personal property by the Assessor or Commissioner of Revenue for the purpose of levying taxes upon the property.

Assessment

The official valuation of property for purposes of taxation.

Assets

Property owned by the City of Staunton having a monetary value.

Assigned Fund Balance

A portion of the total fund balance intended to be used for a specific purpose. The Chief Finance Officer is delegated the authority to assign fund balance for specific purposes.

Authorized Full-Time Employee Positions

The total number of employee full-time positions authorized in the adopted budget.

Available (Unassigned) Fund Balance

The funds remaining from the prior fiscal year available to spend in the current fiscal year.

Balanced Budget

A budget that has the total revenues equal to the total expenditures for the fiscal year.

Basis of Accounting

The timing of recognition when the financial transactions or events should be recognized for financial reporting purposes.

BPOL- Business, Professional, and Occupational License

A license tax levied upon the businesses located or performing work in the City engaged in a profession, trade, or occupation.

BRCS-Blue Ridge Court Services Fund

A fund to account for the revenues and expenditures for the operations of Blue Ridge Court Services. BRCS is funded totally by charges for services, and state and federal grants. Blue Ridge Court Services provides parole and probation services.

Bonds

Any obligation of the locality for the payment of money.

Bonds- General Obligation Bonds

The bonds of a locality for which the locality is required to levy ad valorem taxes for the payment of principal and interest on the bonds.

Bonds- Revenue Bonds

The bonds of a locality for which only specified revenues are pledged and no ad valorem or other tax of the locality are pledged for the payment of the bonds.

Bond Financing

A process used to issue long term debt for the financing of capital improvement projects.

BRCC-Blue Ridge Community College**Budget**

A financial plan that identifies the plan of operations for a fiscal year and stating the required revenue and expenditure appropriations to accomplish the fiscal year plan. The annual budget is established by an Ordinance adopted by City Council.

Budget Amendment

An increase in appropriations for revenues and expenditures during the course of the fiscal year after the budget is formally adopted.

Budget Ordinance

A document used establish a budget for the fiscal year. Adoption of the ordinance legally appropriates funds for public purposes and establishes a tax rate for real estate and personal property. The ordinance gives the City Manager authorization to transfer funds from one revenue or expenditure line item to another line item within each fund of the budget, with the exception of City Council's general contingency account.

Capital Budget

Budget appropriations approved by City Council for the first year of the five-year Capital Investments Plan (CIP).

Capital Improvement Plan (CIP)

The City's multi-year capital improvement plan that identifies the City's and the School's capital infrastructure needs. All governmental funds, proprietary funds, and the School's education funds are included in the plan. Projects can include a major acquisition of new physical assets and /or the replacement/repair of existing capital assets. The plan is a planning tool for a five-year period and is revised and updated annually, and approved by City Council each year.

Capital Project

An expense for the purchase or construction of an item or technology system that generally has a value of at least \$50,000 and has a useful life of at least 10 years.

Capital Reserve

An appropriation in the Capital Investment Plan reserved for the replacement or maintenance of major facilities and equipment.

Carryover Funds

The process of appropriating specific funds, encumbrances, and other obligations approved in a previous fiscal year to complete the project, program, or planned expenditure. Some Commonwealth of Virginia programs and grants require the carryover of unspent funds from one fiscal year to another.

CDBG- Community Development Block Grant

A grant program funded by the United States Department of Housing and Urban Development (HUD) to improve the housing, neighborhood, and economic conditions of the City's low and moderate income residents.

City Manager's Proposed Budget

An annual financial plan for the fiscal year for revenues and expenditures submitted by the City Manager to City Council for all funds.

COLA – Cost of Living Adjustment

A cost-of-living adjustment in the form of a pay increase for employees.

Community Development Fund

A fund to account for the proceeds of federal Community Development grants and other federal and state grant programs for community development. Expenditures are restricted by terms of the grant agreements for community development activities. Community Development Block Grants (CDBG) for general government purposes are also reported in this fund.

Constitutional Offices

The offices of the City's elected officials established by the Commonwealth of Virginia. The City has five constitutional offices; the Sheriff, Treasurer, Commissioner of Revenue, Clerk of the Circuit Court, and the Commonwealth Attorney.

CPI-Consumer Price Index

A statistical measure published by the United States Bureau of Labor Statistics to show the effect of inflation on purchasing power for the price of consumer goods and services purchased by households.

CSA-Children's Services Act for Youth and Families**CSPDC- Central Shenandoah Planning District Commission**

A regional group of cities and counties that includes the Cities of Staunton, Waynesboro, Harrisonburg, Lexington, Buena Vista, and the Counties of Augusta, Rockbridge, Highland, Rockingham, and Bath County. The Central Shenandoah Planning District Commission provides assistance in a variety of program areas including Disaster Preparedness and Mitigation, Economic Development, Environmental and Natural Resources, Housing and Community Development, and Transportation. The GIS staff at the CSPDC supports the geospatial data needs of all of our program areas, as well as, provides the localities in the region with a variety of GIS/mapping services

CY- Calendar Year**Debt**

An obligation or liability to re-pay funds borrowed.

Debt Service

The amount of principal and interest due and payable each year on the City's debt.

Debt Service Fund

A fund established to account for the principal and interest payments of general long-term debt. The City has one debt service fund, the General Governmental Debt Service Fund, that includes debt payments for the City and the Schools. Debt payments for the proprietary funds are included the proprietary funds.

Department

An entity, such as the Department of Public Works, responsible for the operations and services of that unit.

DEQ-Department of Environmental Quality

The Department of Environmental Quality protects and enhances Virginia's environment, and promotes the health and well-being of the citizens of the Commonwealth.

Distinguished Budget Presentation Awards Program

An awards program created in 1984 and administered by the Government Finance Officers Association to recognize governments that prepare effective budget documents to communicate with their constituents. Budget documents are evaluated based on compliance with numerous criteria established by GFOA's Committee on Governmental Budgeting and Management.

DSD- Downtown Service District

The downtown business district established as a special service district for City services with an additional real estate tax levied against real property values.

Education Fund

A governmental fund to account for revenues and expenditures for the operations of Staunton City Schools.

Employee Fringe Benefits

A form of compensation, in addition to wages or salary, in the form of employer paid contributions for benefit programs. The City's employee fringe benefits include the costs for Social Security and Medicare (FICA), a retirement and life insurance program administered by the Virginia Retirement System, workers compensation, health insurance, unemployment, a 457 Deferred Compensation Plan, vehicle allowance, and the Line of Duty Act for public safety employees.

Encumbrances

Funds reserved for specific purposes for goods and services purchased prior to the actual payment for the goods and services. Funds are reserved in the accounting system by a purchase order after a contract has been signed or goods ordered.

Environmental Fund

This fund accounts for the operations of the City's street cleaning, recycling, refuse collections and regional landfill operations.

Expenditure

Payment of cash or cash-equivalent for goods or services, or a charge against available funds in settlement of an obligation as evidenced by an invoice, receipt, voucher, or other such document.

Fiscal Year

A twelve-month period designated as the operating year for accounting and budgetary purposes. The City's fiscal year period is July 1st to June 30th.

Fund

An accounting term to describe the City's major financial accounts used to record revenues and expenditures for a specific purpose. A fund has self-balancing set of accounts to record revenues and expenditures, assets, liabilities, reserves and equity. The City has governmental funds, internal service funds, and proprietary funds. The governmental funds include the; General Fund, Debt Service Sinking Fund, Capital Investment Fund, Education Funds, Blue Ridge Court Services Fund, Grants Fund, and the Community Development Fund. The proprietary funds include the; Water Fund, Sewer Fund, Environmental Fund, Parking Fund, Storm Water Fund, and the Golf Fund. The internal service funds include the; Health Insurance Fund and the Inventory Fund. Staunton City Schools have governmental funds that include the; Education Fund, Textbook Fund, Cafeteria Fund, Capital Improvements Fund, the State Operated Programs Fund, and the GENESIS Fund.

Fund Balance

An amount of money or other resources in a fund stated at the end of the fiscal year period. The value represents the total assets of a fund minus the liabilities, and revenues. It is commonly referred to as the year-end balance of a fund.

Fund Balance Classifications

Fund balances of governmental funds are classified into five sections for nonspendable funds, restricted funds, committed funds, assigned funds, and unassigned funds.

GAAP- Generally Accepted Accounting Principles

A widely accepted set of rules, conventions, standards, and procedures for reporting financial information, as established by the Financial Accounting Standards Board.

General Contingency Reserve

Funds set aside to provide for unforeseen expenditures. The General Fund has \$250,000 established as a contingency for the fiscal year.

General Fund

A fund to account for all revenues and expenditures for general operations of City departments. The General Fund is the City's primary operating fund used to account for and report all financial resources not accounted for and reported in another fund.

GFOA-Government Finance Officers Association

GFOA represents public finance officials throughout the United States and Canada to promote excellence in state and local government financial management.

GHP- Gypsy Hill Park

A recreational park facility owned and operated by the City.

Grant

A source of funding contributed by another entity or from another governmental unit such as the federal or state government. The funding is usually contributed for a specific purpose with guidelines for the expenditure of funds.

HB599

State aid for law enforcement services for localities with police departments.

Inter-Fund Transfers

A transfer of cash from one fund to another fund for the same government unit.

Inter-Governmental Revenue

Revenue received from other governments, such as the federal or state government.

Internal Service Fund

Funds to account for the financing of goods and services to other departments of the City on a cost reimbursement basis. The City's Internal Service Funds include the Health Insurance Fund and the Inventory Fund.

Licenses/Permits

Revenues categorized as an account group to report fees levied for transactions such as the issuance of building permits, zoning fees, police fees, etc.

Line Item

A revenue or expenditure account established for budget appropriations and reporting.

Long-Term Debt

Debt with a maturity of more than one year after the date of issuance.

MHP-Montgomery Hall Park

A recreational park facility owned and operated by the City.

Modified Accrual Basis of Accounting

All governmental funds use the modified accrual basis of accounting. Revenues and related assets are recognized when measurable and available. Expenditures are generally recognized when the goods and services are received and the fund liability is incurred.

MRRJA- Middle River Regional Jail Authority

The regional jail facility owned and operated by the Cities of Staunton, Harrisonburg, Waynesboro, and the counties of Augusta and Rockingham. Annual operating expenses are allocated based on the number of inmates from each jurisdiction.

MRRWWTP- Middle River Regional Wastewater Treatment Plant

The regional wastewater treatment facility owned by the City of Staunton and Augusta County Service Authority. The facility is operated by Augusta County Service Authority. The City owns 72.1% of the facility and Augusta County Service has ownership of 27.9%. Operating expenses are paid based on the percentage of total gallons of sewage flow received from each locality. Capital expenses are paid based on the ownership percentage.

Object Classification

The grouping of expenditures based on the type of expenses for the goods and services purchased. Examples include personal services, fringe benefits, materials, services, equipment, etc.

Operating Expenditures

The cost of personnel, materials, services, and capital outlay required for a department to function to provide services to the citizens of the City. Examples of operating expenditures include the cost for; wages, fringe benefits, the purchase of goods and services, equipment maintenance contracts, and capital outlay such as furniture, technology equipment, vehicles, etc.

OPEB- Other Post-Employment Benefits

Benefits received by an employee when he or she begins retirement. The City provides retiree health insurance to retired employees until the age of 65.

Ordinance

A document representing a set of laws, codes, or regulations. The budget ordinance is the means by which the annual budget appropriations are adopted and authorized by City Council.

Parking Fund

A proprietary fund to account for the operations of the City parking garages, lots and parking enforcement operations. Fees are charged to customers that use the parking facilities.

PILOT – Payment in Lieu of Tax

A revenue source to the General Fund paid as a fee from the proprietary funds for the overhead costs of administering the proprietary fund

PPTRA- Personal Property Tax Relief Act

The Personal Property Tax Relief Act of 1998 provides tax relief for residential passenger cars, motorcycles, and pickup trucks and other residential vehicles. PPTRA revenue is received by the City from the State and passed through to residents in the form of a credit on the personal property tax bill.

Proprietary Fund

A separate fund established to account for specific operations that are financed through user fees for a specific public service. The City of Staunton has six proprietary funds, the water fund, sewer fund, environmental fund, parking fund, golf fund, and stormwater fund.

Real Property

Real estate, including land, buildings, and improvements classified as land, residential, commercial, industrial, and tax-exempt property for purposes of tax assessment.

Revenue

Income received from the levy of taxes, fees, charges for services, inter-fund transfers, and federal and state funds and grants.

Salaries and Benefits Expenses

A category of expenditures for reporting personal services cost that includes salaries, wages, and fringe benefits cost for the employee.

SCS- Staunton City Schools**Sewer Fund**

A proprietary fund to account for the operation of the City's sewer treatment and distribution system. Utility fees are charged to consumers to pay for the operations and capital.

SOP- State Operated Programs

Education programs operated and fiscally managed by Staunton City Schools for the Commonwealth of Virginia. These two programs include the Shenandoah Valley Juvenile Detention Center (SVJDC) and the Commonwealth Center for Children and Adolescents (CCCA). The Commonwealth pays the total cost of operations for these programs. The employees of these programs are Staunton City School employees.

Storm Water Fund

A proprietary fund to account for the operations of the City's storm drain infrastructure systems. Utility fees are charged to consumers to pay for the engineering operations and capital infrastructure.

Tax Base

The total market value of taxable property, including real property and personal property. Real property includes land, buildings, and improvements owned by citizens, businesses, and public service corporations. Personal property includes cars, boats, and business tangible property.

Tax Rate

A dollar value established as a rate to levy taxes based on an assessed value. The tax rate(s) are established by City Council through adoption of ordinances.

Transfers to Other Funds

A budget appropriation to account for the transfer of revenue from one fund to another fund to support the operation of the receiving fund or as a reimbursement for costs incurred to a fund. For example, the General Fund transfers funds to the Education Fund to fund the local cost of education expenses.

VCSB-Valley Community Services Board

VCSB has the authority by the Code of Virginia for mental health, intellectual disability and substance abuse services. VCSB is a regional facility for the City of Staunton, Augusta County, and the City of Waynesboro. VCSB is funded by federal, state, and local budgets.

VDOT- Virginia Department of Transportation

The Virginia Department of Transportation is responsible for building, maintaining and operating the commonwealth's roads, bridges and tunnels. Virginia has the third-largest state-maintained highway system in the country, behind Texas and North Carolina and through the Commonwealth Transportation Board, it provides funding for airports, seaports, rail and public transportation. The City receives federal and state highway funds through VDOT for annual street maintenance expenses and funds or grants for capital construction of roadways, sidewalks, and storm drain infrastructure.

VRS- Virginia Retirement System

The retirement pension and life insurance program for employees.

VPASA- Virginia Public School Authority

The Virginia Public School Authority operates several financing programs for public primary and secondary education. The goals of the VPASA's financing programs are to: provide market access to those communities which do not have ready access; provide low cost financing; and maintain the high credit quality to ensure that the lowest possible interest rates are obtained. The City issues general obligation bonds through VPASA to finance the construction and renovation of school buildings.

VRA-Virginia Resources Authority

VRA, working with its state agency partners, provides Virginia localities access to cost-effective, sustainable, and innovative financial solutions for projects that support vibrant and healthy Virginia communities. The City issues general obligation bonds through VRA for water and sewer capital projects.

VW-Victim Witness Program

A grant program funded by state and federal grants, and local sources to provide for the rights of victims in restitution recovery.

Water Fund

A proprietary fund to account for the operation of the City's water resources, treatment and waterline distribution system. Utility fees are charged to consumers to pay for operations and capital.

Ordinance No. 2024-

**AN ORDINANCE ESTABLISHING A BUDGET FOR THE
CITY OF STAUNTON, VIRGINIA, FOR THE FISCAL YEAR
BEGINNING JULY 1, 2024 AND ENDING JUNE 30, 2025,
APPROPRIATING FUNDS FOR PUBLIC PURPOSES FOR SUCH FISCAL YEAR,
SUBJECT TO FUTURE APPROPRIATION AMENDMENT;
ESTABLISHING A TAX RATE ON TAXABLE PERSONAL PROPERTY,
REAL ESTATE AND PROPERTY OF PUBLIC SERVICE CORPORATIONS;
ESTABLISHING AND IMPOSING A SERVICE CHARGE ON
CERTAIN REAL PROPERTY EXEMPT FROM TAXATION;
AND CONTINUING IN EFFECT ALL ORDINANCES OF THE
CITY OF STAUNTON, VIRGINIA, RELATING TO TAXES, LICENSES,
FEES, SERVICE CHARGES, COSTS AND OTHER CHARGES AND
ALL ORDINANCES RELATING TO THE TIME OF
PAYMENT THEREOF AND COLLECTION THEREOF, EXCEPT AS HEREIN
SPECIFICALLY MODIFIED**

BE IT ORDAINED by the Council of the City of Staunton, Virginia, as follows:

SECTION 1. The following budget, annexed and incorporated by reference, totaling **\$148,269,045** for the City of Staunton, Virginia for the fiscal year beginning July 1, 2024 and ending June 30, 2025 is hereby proposed, approved and adopted:

(SEE ATTACHED BUDGET, incorporated by reference)

SECTION 2. Public revenues of the City of Staunton, Virginia are hereby appropriated for public purposes for the fiscal year beginning July 1, 2024, and ending June 30, 2025, as set forth in the appropriate Section of such budget.

SECTION 3.

3.1. The tax rate for all real estate, including real estate owned by public service corporations, subject to tax for the calendar year beginning January 1, 2024, shall be and is fixed at \$0.89 per \$100.00 of assessed value of such property per year, with assessed values being established through biennial reassessments pursuant to Section 58.1-3253 of the Code of Virginia, as amended, as of January of every odd numbered year.

3.2. The tax rate for all real property and improvements located in the Downtown Service District is subject to an additional tax for the calendar year beginning January 1, 2024, which shall be and is fixed at \$0.15 (fifteen cents) per \$100.00 of assessed value of such property for calendar year 2024. Assessed values for the Downtown Service District shall be established through biennial reassessments pursuant to Section 58.1-3253 of the Code of Virginia, as amended, as of January 1 of every odd numbered year. These rates shall continue until modified by action of the Council of the City of Staunton, Virginia.

SECTION 4.

4.1. The tax rate for all personal property, including vehicles owned by public service corporations (but excluding machinery and tools, referenced and defined in Section 58.1-3507 of the Code of Virginia, as amended), subject to tax for the calendar year beginning January 1, 2024, shall be fixed at \$2.90 per \$100.00 of assessed value per year.

4.2. The tax rate for machinery and tools as defined in Section 58.1-3507 of the Code of Virginia, as amended, subject to tax for the calendar year beginning January 1, 2024 shall be and is fixed at \$1.24 per \$100.00 of assessed value per year.

SECTION 5. For the period of July 1, 2024, through June 30, 2025, certain categories of property exempted from taxation under Section 58.1-3600 et seq. of the Code of Virginia, as amended, shall be assessed and have imposed a fee or service charge based on the assessed value of the real estate and the amount which the City of Staunton expended in the year preceding for police and fire protection and, in the case of faculty and staff housing of an educational institution, the cost of public school education. The categories of property eligible for such assessment, and the method for calculating the assessment, are prescribed in Section 58.1-3400 et seq. of the Code of Virginia, as amended.

SECTION 6. The rate of service charge or fee imposed for property subject to such charge or fee under Section 5 of this ordinance shall be and is fixed and imposed at \$0.19 per annum per \$100.00 of assessed value and \$0.49 per annum per \$100.00 of assessed value for faculty and staff housing of an educational institution for the 2024 calendar year. The service charge shall be and is payable in one installment on December 15, 2024. Any service charge not paid when due shall bear interest computed at the rate of 10% per annum from the due date until paid.

SECTION 7. The real estate lawfully owned by the County of Augusta lying wholly or partly in the corporate limits of the City of Staunton, Virginia, shall be exempt from the service charge imposed by Section 5 of this ordinance.

SECTION 8. It is the intention of Section 5, 6 and 7 of this ordinance to conform to and meet all the requirements of Section 58.1-3400 et seq. of the Code of Virginia, as amended, and shall be read and construed accordingly.

SECTION 9. The annual salary for each member of the Council of the City of Staunton, Virginia, is hereby established as follows and shall remain in effect until formal action is taken to amend this ordinance:

Mayor	\$11,000
Vice-Mayor	\$10,000
Council Member	\$10,000

SECTION 10.

10.1. The City Manager is hereby authorized to transfer funds from one line item to another line item within each Fund of such budget, with the exception of the general contingency account.

10.2. Authorization is hereby given to the City Manager to withhold or postpone the expenditure of any funds appropriated by and in this ordinance when it appears to the City Manager that it would be in the best interests of the City for such expenditure to be withheld; but, this provision shall not in any way limit or restrict the right of the Council of the City of Staunton, Virginia, in its sole discretion to the fullest extent permitted by law, to direct immediate disbursement of any appropriated funds when the Council of the City of Staunton, Virginia, is of the opinion that the funds should be expended regardless of the position or action or inaction of the City Manager.

SECTION 11. Any ordinance in conflict with this ordinance is hereby repealed to the extent and only to the extent that such conflict exists. However, all ordinances not in conflict with this ordinance shall continue in effect, including specifically all ordinances of the City of Staunton, Virginia relating to taxes, licenses, fees, service charges, costs and payment and collection thereof continuing in effect except as herein specifically modified.

SECTION 12. If any part of this ordinance is found to be invalid by competent authority, the remaining portions of this ordinance shall continue in effect to the fullest extent permitted by law.

This ordinance shall be effective _____, 2024.

Stephen W. Claffey, Mayor

DESCRIPTION OF MAJOR REVENUE SOURCES

The following is a brief description of the major General Fund revenue sources administered by the City of Staunton.

Taxing Authority

1. Constitution

The authority of the General Assembly, and limitations on such authority concerning taxation by local governments, are set out in Article X of the Virginia Constitution. Because the General Assembly inherently has the power to tax and to delegate such authority to local governments, the principal purpose of Article X is to restrict the taxing powers the General Assembly may grant to local governments.

The Constitution segregates certain sources of tax revenue exclusively for taxation by the state and others by the localities. Section 4 of Article X specifically provides that real estate, coal and other mineral lands, and tangible personal property, except rolling stock of public service corporations, are to be taxed only by local governments.

2. Virginia Code

The taxing authority of local governments is essentially statutory and is set out primarily in Subtitle III, Chapters 30 through 39, of Title 58.1 of the Code of Virginia.

Major sources of tax revenue include retail sales and use tax; consumer utility taxes; motor vehicle and trailer license taxes; business, professional, and occupational license taxes; transient occupancy taxes; recordation taxes; taxes on wills and grants of administration; bank franchise taxes; recreation taxes; and special and sanitary district taxes.

3. Uniform Charter Powers Act

The one exception to the statutory grant of taxing authority is the Uniform Charter Powers Act. As the Virginia County Supervisors' Manual states:

The Code of Virginia sets forth in considerable detail the items of wealth or wealth-producing activities which may be taxed by local governments. As a result, counties and cities now enjoy relatively parallel tax powers, except for the broad grant of taxing power contained in the Uniform Charter Powers Act that is subject to inclusion in municipal charters.

Section 15.1-841 of the Code of Virginia refers to the taxing powers granted under the Uniform Charter Powers Act and states:

§ 15.1-841. Taxes and assessments. A municipal corporation may raise annually by taxes and assessments on property, persons and other subjects of taxation, which are not prohibited by law, such sums of money as in the judgment of the municipal corporation are necessary to pay the debts, defray the expenses, accomplish the purposes and perform the functions of the municipal corporation, in such manner as the municipal corporation deems necessary or expedient.

Under this section, cities and towns which have incorporated the Uniform Charter Powers Act into their charters have a general taxing authority. Accordingly, such cities and towns may in fact impose taxes as a result of this provision, or through explicit authority granted in their charters, which may not be levied by counties. A major difference resulting from this general grant of taxing authority is that cities and towns which incorporate it into their charter may levy taxes in addition to those imposed by counties; unlike counties, they are not subject to the rate limitations set out in the Code.

C. Local Taxes

The following section briefly describes each of the local taxes imposed by Virginia's counties, cities, and towns.

1. Taxes on Property

a. Real property. The real property tax is assessed annually against the fair market value of all taxable real estate. Fair market value is determined by an appraisal process which may occur as frequently as annually or as infrequently as every six years.

Certain types of property which may not technically constitute real property, fixtures, or improvements to real estate are taxed like real estate. Mineral and timber lands are also taxed as real estate, although they are to be separately listed and assessed. Mobile homes, although they may constitute real property under the law of fixtures, are classified as tangible personal property but may not be taxed at a rate greater than that applicable to real property.

b. Land use taxation. In 1971, the General Assembly adopted legislation for the purpose of preserving land dedicated to agricultural, horticultural, forestal, and open space uses by reducing or deferring increased taxes due to a potential "higher use." The concept is based on the assumption that encroaching development and resulting higher property taxes compelled farm owners to sell their land. Land use taxation is a local option program, and localities may elect to include any or all of the four classifications of property in their ordinance. The State Land Evaluation Advisory Council annually determines and

publishes a range of suggested values for each of the special uses. These values are advisory, however, and the ultimate valuation is made by the commissioner of the revenue or other local assessing officer. In addition to the special use value, the local assessor also determines the fair market value of the special use property at its highest and best use.

When the landowner changes the use of the land, liability for roll-back taxes attaches and is computed by adding the amount of deferred tax for the five most recent completed tax years, including simple interest at the rate applicable to the delinquent taxes. In addition, taxes for the current tax year are recalculated. The amount of deferred tax for each year is the difference between the tax actually levied and paid and the tax that would have been paid if fair market value assessments had been utilized.

2. Property Tax Exemptions

The majority of property tax exemptions are found in Article X, Section 6 of the Virginia Constitution, which includes the following:

1. Property owned directly or indirectly by the Commonwealth or any of its political subdivisions;
2. Property owned and exclusively occupied or used by churches or religious bodies for religious worship or for the residences of their ministers;
3. Nonprofit cemeteries;
4. Property owned by nonprofit public libraries or nonprofit institutions of learning, as long as such property is primarily used for literary, scientific or educational purposes or purposes incidental thereto;
5. Intangible personal property, or any class or classes thereof, as may be provided for in general law;
6. Property used by its owner for religious, charitable, patriotic, historical, benevolent, cultural or public park and playground purposes, as may be provided by classification or designation by a three-fourths vote of the General Assembly;
7. Land subject to a perpetual easement permitting inundation by water as provided by general law;
8. By local option, property owned and occupied as their sole dwelling by persons 65 years of age or older or permanently and totally disabled, who are deemed by the General Assembly to be bearing an extraordinary tax burden on such property in relation to their income and financial worth;
9. By local option, pollution control or solar energy equipment, facilities, or devices, including real property; and
10. By local option, partial exemption of real estate which has undergone substantial renovation, rehabilitation, or replacement.

Article X, Section 6 of the Constitution also provides that property tax exemptions are to be strictly construed. Items 1, 2, 3, and 4 above are self-executing; that is, they do not require statutes to implement them.

Item 6 above authorizes the General Assembly, by a three-fourths vote in each house, to exempt charitable organizations from property taxation either by designation (naming the specific organization) or by classification (naming a class or groups similarly situated). Since this provision first appeared in the Constitution in 1971, through the end of the 1994 Sessions of the General Assembly, slightly over 600 organizations have been granted exempt status by designation. Few of those exemptions were granted on a state-wide basis; most are granted on a local jurisdiction basis only.

In 1978, the General Assembly determined that the proliferation of tax exemptions constituted one of the reasons local tax bases continued to erode and attempted to devise a method for dealing with the problem. A study authorized by HJR 32 and continued by HJR 227 in 1979 culminated in the Report of the Joint Subcommittee to Study Real Property Tax Exemptions. The report stated that localities' percentages of tax exempt property ranged from four percent to 45 percent of the tax base, with a median of 18 percent. Although governmental property accounted for the largest portion of exempt property, "the private sector's share is quite substantial."

The report also noted that the Commonwealth's "control over exemption policy is an accident of history" and a remnant left over from a period of time when the Commonwealth itself taxed such property. However, the subcommittee concluded "that it was impossible to make meaningful changes affecting existing exemptions. No charitable organization was willing to exchange a sure exemption for uncertainty, regardless of the equity of the proposal or the minimal extent of the uncertainty." As a result, the subcommittee was left with merely standardizing the procedure by which new exemptions are to be granted.

That procedure has been codified in § 30-19.04 of the Code of Virginia. Any legislative committee is prohibited from considering such exemption legislation unless the request for legislation is accompanied by a resolution of the governing body of the affected locality either supporting or refusing to support the exemption. Such legislation which is supported by local government is routinely enacted unanimously by each session of the General Assembly.

3. Service Charges

Article X, Section 6 (g) of the Constitution permits the General Assembly to authorize local governments to impose service charges on otherwise tax exempt property. Certain property is excluded from this provision, including the land and buildings of churches used exclusively for worship and property used exclusively for private educational or charitable purposes. The service charge is based on the amount the locality expended in the preceding year for providing services to the exempted property; the services to be considered include only police and fire protection and refuse collection. Any such service charge is capped at 20 percent of the real estate tax rate, or at 50 percent in the case of faculty and staff housing for private educational

institutions.

Concerned that the service charge had been imposed, for the most part, only upon the property of the Commonwealth, the General Assembly amended the Code to restrict the use of the service charge to those localities where the value of real estate owned by the Commonwealth, excluding hospitals, educational institutions, or roadway property, exceeds three percent of the value of all real estate within the jurisdictions' boundaries.

4. Tangible Personal Property

Tangible personal property was segregated for local taxation in 1927. Cities, counties and towns may levy a tax on the tangible personal property of businesses and individuals. For tax purposes, personal property is property that, by its location and character, shows that the owner intends it to be movable. Household goods and personal effects are classified separately to enable localities to exempt them from the personal property tax. Localities are also authorized to exempt or tax at a lower rate farm machinery and equipment.

Since 1979, the number of classifications for tax rate purposes has increased considerably, from eight in 1979 to the current 22. The classification statutes set the upper limit of the tax rate on these classes at the rate on tangible personal property. The localities are not required to establish different tax rates on these different classes of property, but are given the option to adopt lower rates.

The tax is imposed by the locality where the property has situs. The situs, or location, of personal property is the county, city, or town in which the property is physically located on the tax day, which in most localities is January 1. However, the situs for purposes of assessment of motor vehicles, travel trailers, boats and airplanes is the locality where the vehicle is normally garaged, docked, or parked. When situs cannot be determined it is considered to be the owner's jurisdiction.

Localities are required to assess tangible personal property at fair market value. However, localities are authorized to assess each class of tangible personal property according to a different method so long as the method used is uniform within each class.

a. Machinery and tools. Counties, cities, and towns are required to segregate machinery and tools used in a trade or business as a separate classification of tangible personal property. The tax rate, however, cannot exceed that imposed on other classes of tangible personal property.

b. Merchants' capital. The City of Staunton does not assess this tax. The merchants' capital may be imposed by localities that do not impose a business, professional and occupational license tax ("BPOL"). The rate of the merchants' capital tax may not exceed the rate and ratio which were in effect in a locality on January 1, 1978. Localities, however, may still lower the tax liability of merchants by changing the nominal rate, the assessment ratio, or both. Merchants' capital is defined as inventory of stock on hand, daily rental passenger cars as defined in § 58.1-2401 of the Code, daily rental property, and all other taxable personal property of any kind except (i) money on hand and on deposit and (ii) tangible personal property not offered for sale as merchandise.

5. Taxes on Individuals/Consumers

a. Sales and use. Tangible personal property sold or used in the Commonwealth is subject to the Virginia retail sales and use tax unless the property is exempt from taxation by statute. A transaction subject to the sales tax is not subject to the use tax. Sales and use tax exemptions are classified into the following ten categories: (i) governmental and commodities, (ii) agricultural, (iii) commercial and industrial, (iv) educational, (v) services, (vi) media-related, (vii) medical-related, (viii) nonprofit civic and community service, (ix) nonprofit cultural organizations, and (x) miscellaneous.

Virginia's counties and cities are authorized to impose up to a one percent local sales and use tax on a tax base identical to the state tax base. All counties and cities have chosen to impose the local tax at the maximum rate of one percent, which means there is a uniform 5.3 percent sales and use tax rate imposed throughout the Commonwealth, including the 4.3 percent state tax rate.

State tax revenues generated by one percent of the 4.3 percent tax rate are distributed to counties and cities on the basis of the number of school-age children in each locality according to the most recent statewide census of school-age population taken by the Department of Education. The state revenues distributed to each locality must be used for maintenance, operation, capital outlay, debt, and other expenses incurred in the operation of public schools.

The one percent local sales tax collected with the state tax is distributed to counties and cities based upon the point of sale. The revenues collected are distributed to the general fund of the locality and may be used for any purpose. Towns located within a county do not have authority to levy the local sales tax unless the county has not levied the tax. However, the town is entitled to a portion of the local revenues collected by the county.

b. Motor fuel. The City of Staunton does not assess this tax. Certain localities are authorized to impose a special local sales and use tax on motor fuel of up to two percent of the retail price of the fuel. Motor fuel is one of the categories of tangible personal property which is exempt from the general sales and use tax base. The Code of Virginia authorizes the imposition of this tax by any county or city that is a member of the Northern Virginia Transportation District or any transportation district contiguous to the Northern Virginia Transportation District (currently, only the Potomac-Rappahannock Transportation District). The tax is levied like a sales and use tax but is essentially a motor fuel tax, since the tax is incorporated into the pump price of the motor fuel.

c. Daily rental property. The daily rental property tax is a tax on the gross proceeds of any person engaged in the short-term rental business. Localities are authorized to levy the daily rental property tax in an amount not to exceed one

percent.

d. Motor vehicle license. The City of Staunton does not assess this tax. Counties, cities, and towns are authorized to impose a license tax on motor vehicles, trailers, and semi-trailers not to exceed that imposed by the state. The situs for the imposition of the license tax is the locality in which the vehicle is normally garaged, stored, or parked. If it cannot be determined where the personal property is normally located, the situs is the domicile of its owner. If the owner of the vehicle is a college student, the situs is the domicile of the student.

e. Consumer utility. The consumer utility tax is a local option tax which localities are authorized to impose on consumers of telephone services, water, heat, light, and power. The tax on residential customers may not exceed 20 percent of the first \$15 of the monthly bill. However, any locality imposing a higher rate prior to July 1, 1972, may continue to tax at that rate, but may not raise it further. There are no limitations on the rates imposed on nonresidential consumers, i.e., commercial or industrial consumers.

The local utility tax is collected by the public service corporations or service providers as part of the monthly bill, with virtually no administrative costs to the locality. Localities are authorized to pay a commission of up to five percent of collections for collecting the tax if the tax is remitted in a timely fashion. If a town imposes the tax, the county tax does not apply within the town if it operates its own school system or provides police or fire services and water or sewer services. 36 out of 38 cities and 87 of the 95 counties reported a utility consumers' tax in effect during the 2018 tax year.

f. Transient occupancy. The transient occupancy tax is a local tax based on the charge for lodging in hotels, motels, boarding houses, travel campgrounds and other facilities offering guest rooms rented out for continuous occupancy for fewer than 30 consecutive days. Counties are authorized to impose a tax of up to two percent based on the amount of the charge of the occupancy. By special act, Arlington County is authorized to impose a tax of five percent. Cities and towns may impose the tax without limitation under their "general taxing powers" provided under the Uniform Charter Powers Act. If a town imposes a transient occupancy tax, a county may not levy the same tax within the territorial limits of the town unless the town grants the county the authority to do so.

g. Meals. The food and beverage tax, also known as the meals tax, is a local tax based on the amount charged for certain prepared foods and beverages. Counties are limited to an 8.5 percent tax rate, but this includes the 4.5 percent sales and use tax, resulting in an effective meals tax cap of four percent. Prior to the imposition of the meals tax, the tax must be approved in a voter referendum in the county, unless the county is exempt from this requirement. Under the general taxing powers provided in the Uniform Charter Powers Act, any city or town may levy a meals tax without any limit on the tax rate. As with other local taxes, when a town imposes the meals tax, it prevents the county in which the town is located from imposing the county meals tax with the town, unless the town specifically allows the imposition of the county tax within the town's geographical limits.

h. Cigarettes. The cigarette tax is a flat fee levied on each pack of cigarettes. The local cigarette tax is added on to the price of each pack prior to its purchase. Cities may impose the tax provided they had the authority to do so under their charter prior to January 1, 1977. Only two counties, Arlington and Fairfax, have been granted statutory authority to levy the cigarette tax and are subject to a maximum rate of five cents per pack or the amount levied under state law, whichever is greater. Under the general taxing powers provided in the Uniform Charter Powers Act, any city or town may levy the cigarette tax without any restriction on the rate charged.

i. Admissions. The City of Staunton does not assess this tax. The admissions tax is a local tax based on the charge for admission to certain events which are divided into five classes. Localities may tax each class of admissions with the same or a different tax rate. Cities and towns may impose the tax without limitation under their "general taxing powers" provided under the Uniform Charter Powers Act. However, of Virginia's counties, only four (Fairfax, Arlington, Dinwiddie, and Prince George) are authorized to levy an admissions tax at a rate not to exceed 10 percent of the amount of charge for admissions. Only one of the four counties, Dinwiddie, currently levies the admissions tax.

j. Recordation. The recordation tax is a tax imposed on the privilege of recording any deed, lease, contract, or mortgage relating to real estate and certain railroad rolling stock. Currently the state recordation tax is 15 cents per \$100 or fraction thereof on deeds of bargain and sale, the tax is imposed on the sales price or the actual value of the property conveyed, whichever is greater. The option is placed in the statute as a safeguard to ensure that the consideration is not understated as a tax avoidance measure. On deeds of trusts and mortgages, the tax is imposed on the amount of debt, bonds, or obligation secured by the debt instrument.

Localities are authorized to impose a local recordation tax in an amount equal to one-third of the amount of the state recordation tax. Almost all Virginia cities and counties have exercised this authority and enacted a local recordation tax.

k. Probate. The probate tax is a tax on the probate of every will or grant of administration. Counties and cities are authorized to impose a local probate tax in an amount equal to one-third of the state probate tax.

l. E-911 emergency services. Any county, city or town which has established or will establish an enhanced 911 emergency telephone system is authorized to impose a special local tax on consumers of telephone services.

6. Taxes on Businesses

a. Business, professional and occupational license (BPOL). Counties, cities, or towns may levy a local license tax on business, trades, occupations, and professions. The tax is commonly referred to as the BPOL tax. The basis for the tax is normally gross receipts, but will always be the same for all individuals engaged in the same business. Some occupations and businesses are exempt from the tax, including but not limited to certain public service corporations and manufacturers who sell merchandise at wholesale at the place of manufacture. For counties, the license tax imposed does not apply in any town in the

county where the town has a similar tax unless the town's governing body makes provision for the county to apply the tax.

The situs for the BPOL tax is any county, city, or town in which the individual maintains an office or carries on principal and essential business. If such taxable situs is in more than one local jurisdiction, the tax in any one jurisdiction may not exceed the amount of business attributable to that local jurisdiction.

In general, the limits on the BPOL tax rates are that:

"[N]o local tax imposed ... shall be greater than thirty dollars or the rate set forth below for the class of enterprise listed, whichever is higher:

1. For contracting, and persons constructing for their own account for sale, sixteen cents per \$100 of gross receipts;
2. For retail sales, twenty cents per \$100 of gross receipts;
3. For financial, real estate and professional services, fifty-eight cents per \$100 of gross receipts; and
4. For repair, personal and business services, and all other businesses and occupations not specifically listed or excepted in this section, thirty-six cents per \$100 of gross receipts."

b. Utility license. The utility license tax is a local license tax on public service corporations, including telephone and telegraph companies, water companies, and heat, light and power companies. Localities are authorized to levy a utility license tax in an amount not to exceed one-half of one percent of the gross receipts accruing to the company from business within the locality.

c. Bank franchise. The bank franchise tax is a tax assessed against the "net capital" of banks and bank holding companies. The tax is imposed at the rate of one dollar on each \$100 of net capital, and any city, town, or county may impose a bank franchise tax, not to exceed 80 percent of the state tax rate on each \$100 of net capital of such bank located in the jurisdiction. Any bank paying such a local bank franchise tax is entitled to a credit on its state return. Therefore, 80 percent of the bank franchise tax is paid into the treasuries of the localities in which the bank is doing business.

STAUNTON PLANNING COMMISSION

APPROVAL DATE _____

CITY COUNCIL

APPROVAL DATE _____

OVERVIEW

The City of Staunton's Capital Improvement Plan (CIP) is a comprehensive five-year plan that identifies the City's capital and infrastructure needs for all City operations to include the General Fund, Education Fund, and all proprietary funds that include the Water Fund, Sewer Fund, Environmental Fund, Parking Fund, and Stormwater Fund. The plan provides for the planning of the acquisition of new physical assets and/or the replacement/repair of existing capital assets. The CIP provides a plan and funding for the renovation of public buildings, school buildings, street repairs/additions, water and sewer lines, recreational facilities, community development projects that promote the economic growth and vitality of the City, and the construction of major new facilities. The adoption of the Capital Improvement Plan by City Council indicates Council's support and commitment for the projects and commitment towards the anticipated funding required to maintain facilities and provide new facilities for the community.

By definition, a capital project is primarily a project to construct/renovate major facilities such as school buildings, office buildings, park facilities, infrastructure needs -water, sewer and other utilities- roads, bridges, major equipment, etc. Capital projects have a useful life to the citizens of at least ten years and are projects that usually require multiple years to complete. These projects, once completed, provide for a quality of life in the City and benefit all citizens in the community.

CAPITAL IMPROVEMENT PLAN REVENUE SOURCES:

Cash transferred from the General Fund Budget from the Adopted Operating Budget

General Fund Unassigned Balance

General Obligation Bonds

State and Federal Grants/Cost Share Agreements

Fund Balance/Reserve Policy, Adopted May 26, 2011

Funds in excess of the Safety Net Reserve, the General Contingency amount, and carry forward appropriations unexpended at fiscal year end, shall be given first consideration for appropriation in the City's Capital Improvement Fund. Such appropriation shall be in the form of a budget amendment to the subsequent year's budget.

Any funds in the Education Fund in excess of the annual expenditures for any year ending June 30 shall be given first consideration for appropriation to the Education Fund Capital Improvement Fund. Such appropriation shall be in the form of a budget amendment to the subsequent year's budget or approved through the annual budget adoption procedures.

City Council Policy #5, Adopted October 12, 1989

Any budget savings in debt obligation/lease payments shall be transferred to the Capital Improvement Fund for future capital projects and equipment.

CAPITAL IMPROVEMENT PLAN BUDGET POLICY

The City will consider all capital improvements in accordance with the Adopted Capital Improvement Plan.

The City will develop a five-year plan for capital improvements and review and update the plan annually.

The City will determine the least costly and most flexible financing method for all projects requiring debt financing.

The City will coordinate the development of the capital improvement plan budget with the development of the operating budget.

The City will maintain all its assets at a level adequate to protect the City's capital investment in order to minimize future maintenance and replacement costs.

The City will schedule its major equipment acquisitions and/or replacement of major equipment as part of the capital investment plan process.

The City will identify projects and estimated costs and a potential funding source for each project as part of the capital investment plan process.

The City will identify capital projects that require annual budget funds to maintain the capital asset requiring personnel and operational costs, and any debt payments for bond financing.

FINANCIAL MANAGEMENT POLICY

City of Staunton, Virginia

Capital Improvement Plan Policy

Adopted: January 25, 2018

The Capital Improvement Plan—the CIP—is the City’s five-year plan for projecting the capital needs of the City. It provides for maintenance and funding of present and future buildings, facilities, major equipment, and infrastructure for the City. The CIP also serves as a planning and programming guide for long-term financial planning, and a plan to promote (i) public and private development for the future community growth, and (ii) effective service delivery to citizens of the City.

The overall strategy of the CIP is to plan for land acquisition, construction and maintenance of public facilities necessary for the safe and efficient provision of public services in accordance with the policies and objectives adopted in the City’s Comprehensive Plan. A critical element of a balanced CIP is the provision of funds to both preserve or enhance existing facilities and provide new assets to respond to changing service needs and community growth. The plan is reviewed and revised annually based on priorities, current circumstances, and economic opportunities.

The adoption of the CIP is not a formal financial commitment to any particular project. The CIP serves as a financial planning tool to provide estimated costs for projects, and a schedule for anticipated capital projects and capital financing. The CIP is a key element in planning and controlling the City’s future debt service requirements. The CIP includes some projects where needs have been defined, but specific financial resources have not been identified to advance the project to a scheduled completion year.

THE LEGAL BASIS FOR THE CIP

The CIP is prepared pursuant to Virginia Code § 15.2-2239, which provides, in relevant part:

A local planning commission may, and at the direction of the governing body shall, prepare and revise annually a capital improvement program based on the comprehensive plan of the locality for a period not to exceed the ensuing five years. The commission shall submit the program annually to the governing body, or to the chief administrative officer or other official charged with preparation of the budget for the locality, at such time as it or he shall direct. The capital improvement program shall include the commission's recommendations, and estimates of cost of the facilities and life cycle costs, including any road improvement and any transportation improvement the locality chooses to include in its capital improvement plan and as provided for in the comprehensive plan, and the means of financing them, to be undertaken in the ensuing fiscal year and in a period not to exceed the next four years, as the basis of the capital budget for the locality. In the preparation of its capital budget recommendations, the commission shall consult with the chief administrative officer or other executive head of the government of the locality, the heads of departments and interested citizens and organizations and shall hold such public hearings as it deems necessary.

ANNUAL CAPITAL BUDGET

The Capital Budget appropriates funds for specific facilities, major equipment, infrastructure, and improvements approved in the CIP by City Council through the annual budget process or a budget amendment for all governmental and proprietary funds. The first year included in the CIP reflects the approved annual capital budget funding level. Financial resources for projects in subsequent years in the plan are included for planning purposes only for scheduling and financial planning.

The City funds a portion of the CIP with current revenues in the annual Operating Budget. The long-term goal is to dedicate a minimum of 2.5% of the total current General Fund revenues less General Fund Transfers to Other Funds to finance General Fund capital projects. Other available financial resources include Undesignated Fund Balance, General Obligation Bonds, state and federal grants, and private development contributions, which are appropriated through a budget amendment upon approval of a project.

Proprietary Fund revenues are used to finance Proprietary Fund capital improvement projects. General Fund transfers may be used to finance Proprietary Fund capital projects.

The General Fund Capital Budget is appropriated in the City's multi-year CIP Fund. A financial analysis of the fund shall be conducted quarterly to analyze the status of the funding sources, and to review the project-to-date expenditures. Any project balances shall be re-programmed for other capital projects through a budget amendment process.

THE CIP REVIEW TEAM

A CIP Review Team (CIP Team) is responsible for reviewing capital project requests and providing recommendations annually to the City Manager and Planning Commission. This team is comprised of staff from the Office of the City Manager, the Department of Finance, the Department of Community Development, the Department of Public Works, the Department of Information Technology, the Police Department, the Fire-Rescue Department, the Parks and Recreation Department, and School Board staff from the office of the Director of Operations and the Technology Department. The Chief Financial Officer is responsible for the coordination of the CIP process, including the annual review, presentation to the Planning Commission, and the final adoption of the CIP by City Council.

THE CIP PROCESS

The overall goal of the CIP process is to develop CIP recommendations that:

1. preserve the City's past by investing in the upgrade of assets and infrastructure;
2. protect the present with improvements to City facilities, based on an analysis of costs of repair versus costs of replacement;
3. plan for future facilities and infrastructure that considers the annual cost for new service demands as a result of community growth or facilities and services that provide new or improved quality of life for all citizens; and
4. allow for flexibility to take advantage of economic opportunities that provide for public or private capital investment.

The CIP Team meets in October each year to update existing projects, remove projects, and add new projects. Capital projects are forwarded to the CIP Team by departments responsible for their implementation. In proposing a five-year capital plan, the CIP Team considers the feasibility of all proposed capital projects by evaluating their necessity, priority, location, cost, method of financing, availability of federal and state aid, and the necessary investment in the City's infrastructure. The CIP results from an annual review and a systematic process that advances subsequent years' items each fiscal year.

In January, the CIP is presented to the Planning Commission for review and discussion. A public hearing is held at a subsequent Planning Commission meeting in February to receive public comment. After the public hearing, the Planning Commission makes a recommendation concerning the CIP to City Council.

In late February, the CIP, with the Planning Commission's recommendation, is presented to City Council, for additional review and discussion, and eventual consideration by Council in April.

CRITERIA FOR EVALUATING CAPITAL PROJECTS

The CIP Team uses the evaluation criteria stated below as a guide and assessment tool to determine the immediate, near-term, or long-term timing for scheduling capital projects:

1. The CIP shall execute the goals and objectives of the Comprehensive Plan adopted by City Council.
2. The development of the CIP shall be guided by the principles of lifecycle planning to ensure that long-term maintenance, renewal and replacement requirements are adequately addressed to protect the City's investment and maximize the useful life of facilities.
3. The CIP shall include major equipment and facilities, defined as, all fixed installations constructed and/or maintained with public funds, including buildings and structures, utilities and related improvements that have a useful life greater than 10 years.
4. The CIP shall include the fiscal impact of each project to include the total cost of the project and the annual maintenance and operating costs.
5. The CIP shall support the City's efforts to promote economic vitality and a high quality of life.
6. The CIP shall support the City's efforts to encourage the development of affordable and effective multi-use public facilities, as feasible.
7. The CIP shall be developed to provide facilities that are cost-effective, consistent with appropriate best practice standards, community standards, feasibility, and expectations of useful life.
8. The City shall endeavor to execute the projects as approved and scheduled in the CIP. Value engineering principles shall continue to be applied to appropriate capital projects. Changes in project scope, cost and scheduling shall be subject to close scrutiny.

CRITERIA FOR SCHEDULING CAPITAL PROJECTS

The following criteria shall be considered for purposes of scheduling projects in the CIP:

1. Project Urgency
 - a. Is the project required due to state or federal mandates?
 - b. Will the project improve unsatisfactory environmental, health and safety conditions?
 - c. What are the implications if the project is not built?
 - d. Does the project accommodate increases in demand for service?
2. Project Readiness
 - a. Are project-related research and planning completed?
 - b. Are the appropriate departments prepared to execute the project?
3. Project Phasing
 - a. Can the project be phased over multiple fiscal years?
 - b. Are funds readily available to finance the project?
 - c. Does the project have a net impact on the operating budget?
 - d. Does the project preserve previous capital investments or restore a capital facility to adequate operating condition?
4. Planning Questions
 - a. Is the project consistent with the Comprehensive Plan?
 - b. Can projects of similar use or purpose be co-located at one location?
 - c. Does the project increase the efficiency of the service delivery?
 - d. What are the number and types of citizens likely to benefit from the project?

CAPITAL IMPROVEMENT PLAN SCHEDULE

October 26, 2023	CIP Committee meeting
October - December 17, 2023	Staff review and development of the proposed Capital Improvement Plan. All existing projects to be analyzed, estimated costs updated, and new proposed projects prioritized based on City needs or anticipated changes in the City's needs based on population changes, economic changes, infrastructure projects, etc.
December 18, 2023	CIP Committee meeting
January 8, 2024	Presentation and discussion of the DRAFT School Capital Improvement Plan-School Board work session.
January 18, 2024	Presentation and introduction of the DRAFT Capital Improvement Plan to the City Planning Commission.
February 12, 2024	Adoption of the School Capital Improvement Plan by the School Board.
February 15, 2024	Public hearing and consideration and adoption of the CIP by the Planning Commission.
February 22, 2024	Presentation of the DRAFT Capital Improvement Plan to City Council and discussion with Council of any project, funding proposal, priority of any project, changes to the plan.
March 28, 2024	Presentation of the Proposed FY2025-2029 Capital Improvements Plan to City Council.
April 4, 2024	Work Session to review Capital Improvement Plan by City Council.
April 25, 2024	Adoption of the FY2025-2029 Capital Improvement Plan by City Council.
