

Phase One – Visioning Survey

SAWMPPO 2050
Long Range Transportation Plan

sawmpo

Who We Are

SAWMPO is the regional transportation planning organization that provides support for multimodal transportation projects in the Staunton-Augusta-Waynesboro area.

Who We Are

- Our Policy Board is comprised of elected officials and high-level staff from our member jurisdictions, as well as transportation agency representatives.
- Our Technical Advisory Committee (TAC) is comprised of city, county, and agency staff with expertise in planning, engineering, and related fields.
- The Central Shenandoah Planning District Commission staffs the SAWMPO.

What We Do

- We collect, analyze, and evaluate demographic, land use, and transportation data to gain a better understanding of the transportation system requirements of the area.
- One of SAWMPO's responsibilities is to maintain and update a 25-year plan for transportation needs and planned investments in our region.

2050 Long Range Transportation Plan (LRTP)

Long Range Transportation Plan (LRTP)

- The LRTP will showcase a model for collaborative, regional decision making about transportation needs, and lay the groundwork for future long range planning updates.
- The LRTP is updated every five years and helps direct federal, state, and local dollars toward transportation projects you and your neighbors value.

2050 LRTP Update

- This Plan will cover all modes of travel: driving, walking, biking, and taking the bus.
- The latest update to the LRTP will be rooted in the community's wants and needs.
- Our goal is to engage more stakeholders than ever before during this process.
