

Limited Warranty (Only for U.S.A.)

Panasonic HomeCHEF 4-in-1 Limited Warranty

Limited Warranty Coverage (For USA Only)

If your NN-CV88QS does not work properly because of a defect in materials or workmanship, Panasonic Consumer Electronics Corporation (referred to as "the warrantor") will, for the length of the period indicated on the chart below, which starts with the date of original purchase ("warranty period"), at its option either (a) repair your product with new or refurbished parts, (b) replace it with a new or a refurbished equivalent value product, or (c) refund your purchase price. The decision to repair, replace or refund will be made by the warrantor.

Product or Part Name	Labor	Parts
ALL PARTS (EXCEPT MAGNETRON TUBE)	3 yr.	3 yr.
MAGNETRON TUBE	3 yr.	5 yr.

During the "Labor" warranty period there will be no charge for labor. During the "Parts" warranty period, there will be no charge for parts. This warranty only applies to products purchased and serviced in the United States. This warranty is extended only to the original purchaser of a new product which was not sold "as is".

Mail-In Service – Online Repair Request

To submit a new repair request, and for quick repair status visit our Web Site at: <http://shop.panasonic.com/support>

When shipping the unit, carefully pack and send it in the original (or supplied) carton. Include a letter detailing the complaint along with the bill of sales and provide a daytime phone number where you can be reached. A valid registered receipt is required under the Limited Warranty.

When shipping Lithium Ion batteries please visit our web site at <http://shop.panasonic.com/support> as Panasonic is committed to providing the most up to date information.

IF REPAIR IS NEEDED DURING THE WARRANTY PERIOD, THE PURCHASER WILL BE REQUIRED TO FURNISH A SALES RECEIPT/PROOF OF PURCHASE INDICATING DATE OF PURCHASE, AMOUNT PAID AND PLACE OF PURCHASE. CUSTOMER WILL BE CHARGED FOR THE REPAIR OF ANY UNIT RECEIVED WITHOUT SUCH PROOF OF PURCHASE.

Limited Warranty Limits And Exclusions

This warranty ONLY COVERS failures due to defects in materials or workmanship, and DOES NOT COVER glass, plastic parts, temperature probes (if included) and normal wear and tear or cosmetic damage. The warranty ALSO DOES NOT COVER damages which occurred in shipment, or failures which are caused by products not supplied by the warrantor, or failures which result from accidents, misuse, abuse, neglect, bug infestation, mishandling, misapplication, alteration, faulty installation, set-up adjustments, maladjustment of consumer controls, improper maintenance, power line surge, lightning damage, modification, or commercial use (such as in a hotel, office, restaurant, or other business), rental use of the product, service by anyone other than a Factory Service center or other Authorized Servicer, or damage that is attributable to acts of God.

THERE ARE NO EXPRESS WARRANTIES EXCEPT AS LISTED UNDER "LIMITED WARRANTY COVERAGE".

THE WARRANTOR IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY.

(As examples, this excludes damages for lost time, travel to and from the servicer, loss of or damage to media or images, data or other memory or recorded content. The items listed are not exclusive, but for illustration only.)

ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the exclusions may not apply to you.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state. If a problem with this product develops during or after the warranty period, you may contact your dealer or Service Center. If the problem is not handled to your satisfaction, then write to:

Panasonic Corporation of North America
Consumer Affairs Department
Two Riverfront Plaza
Newark NJ 07102-5490

PARTS AND SERVICE, WHICH ARE NOT COVERED BY THIS LIMITED WARRANTY, ARE YOUR RESPONSIBILITY.

Product registration is not mandatory. Failure to complete the form does not affect the consumer's warranty rights.

Notes & Details

Your establishment relies on refrigeration for proper food safety, and with this Avantco A-49F-HC 54" solid door freezer, you receive performance you can depend on! A painted aluminum interior with a 304 stainless steel floor gives you increased durability, while (2) 430 stainless steel doors and exterior sides give it a sleek appearance. For convenience, 6 epoxy coated shelves feature shelf clips for customization when desired.

Designed to maintain temperatures from -8 to -1 degree Fahrenheit, this freezer boasts a bottom-mounted 1 2/7 hp compressor that Uses R-290 refrigerant. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. In addition, the bottom-mounted design makes it easy for employees to load and unload products due to the raised bottom shelf. For optimal temperature retention, the entire cabinet is foamed-in place using polyurethane insulation. Other helpful features include stay open doors with locks, automatic defrosting, and a digital temperature control with digital display. This item requires a 115V electrical connection for operation.

ETL, US

This product has been certified by ETL, a division of the Intertek Group, to meet applicable electrical product safety standards required for use in the United States.

5-15P

This unit comes with a NEMA 5-15P plug.

ETL Sanitation

This product has been certified by ETL, a division of the Intertek Group, to meet applicable sanitation standards required for use in the United States and Canada.

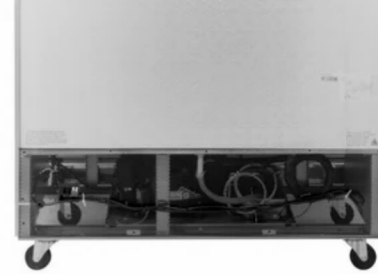

Energy Star Qualified

This item has been Energy Star Qualified by the US Environmental Protection Agency and the US Department of Energy, making it an energy-efficient product.

1 2/7 hp Compressor

The bottom mounted design of the 1 2/7 hp compressor not only draws in cooler air for energy efficiency, but also raises the bottom shelf, so you don't have to bend as much during loading and unloading. It circulates R290 refrigerant. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an environmentally-responsible choice for your business. Also, this unit has an automatic defrost cycle, so your staff doesn't need to spend valuable time clearing out ice.

Corrosion-Resistant Shelves

These adjustable shelves are coated with plastic to help keep out moisture and resist corrosion and rusting. Each unit comes with 6 shelves and 24 shelf clips, allowing you to place your shelves exactly where you need them to accommodate your small or large food products.

Digital Temperature Control

Digital temperature control allows you to easily adjust the temperature of your freezer's cabinet within its -8 to -1 degree Fahrenheit range. Plus, the unit will automatically defrost 4 times a day to keep food fresh and properly chilled. The clear LCD readout also helps keep track of the unit's temperature.

Door Lock

In order to keep your foods more secure overnight and after business hours, this unit features a door lock.

Self-Closing Doors

This unit's doors are self-closing with a stay-open feature, giving your staff the ability to more quickly and easily load your refrigerator when you get a delivery.

Casters Included

This freezer comes with four casters so you can freely move the unit aside when cleaning or maintenance are required, while also letting you make the unit stationary when needed.

Remove the old gasket starting at a corner and pull it out of the recessed channel one side at a time. To insert a new gasket, start at a corner and snap the dart connector into the recessed channel, working your way around the perimeter of the door.

Be sure the gasket has a snug fit and closes properly against the cabinet. These steps will ensure your unit is running at peak performance.

Bought two and one doesn't keep french fries frozen. Internal fan doesn't seem to circulate so top of product is froze but bottom shelves are not. Seems like an easy fix but after two weeks of talking with readykitchen warranty, still no action. DO NOT purchase ready kitchen. Every interaction is obviously geared to not solve the problem quickly. They will not send a tech to fix and as commercial kitchen owners know, we don't have tome to answer one question a day from a tech in some other country telling us to troubleshoot over a "chat" or email. My product is lost long ago at this point and they won't even provide a phone number. It is crystal clear the objective of the extended warranty is to take money and never solve the problem. Do yourself a favor and accept its a throw away item and either pay for service yourself if minor or purchase a new one. Ready kitchen is a horrible excuse for a solution.

I purchased the Avantco A-49F-HC freezer for my small business, hoping for reliable performance, but it has been a major disappointment. After just four years of moderate use, the compressor completely failed, leaving me with spoiled inventory and a hefty repair bill. To make matters worse, Avantco refused to honor any warranty on the compressor, claiming it was outside their coverage period. For a commercial-grade unit, I expected far better durability and customer support. The initial cooling was decent, but the lack of longevity and poor warranty service make this freezer a risky investment. Save your money and look for a more reliable brand with better customer service.

Worst purchase ever! Poor quality very flimsy and so loud it makes me physically ill, headache, nausea. I'm sad, mortified. It cost more to repair than new.

Decent freezer so far. It makes a good amount of noise and rattles (unlike my other three fridge and freezers). I bought a bun rack that (according to website) fits - it did not. The replacement they offered fit but it's extremely tight - I will need to modify the rack in order for it to fit well. Otherwise works well so far.

Freezer arrived with shelving tracks installed incorrectly and the freezer is very noisy. Even though the freezer arrived with issues webstaurant customer support wouldn't do anything to help other than suggest I submit a warranty claim on my brand new freezer. The warranty company has been very difficult to deal with. 2 months in and I'm now just getting it diagnosed my a service tech to wait on parts that may or may not require that I end up replacing the unit anyhow. I am beyond dissatisfied with this unit and wish I would not have purchased.

Not a good freezer! Only lasted about 1.5 years of actual use! Compressor went out, now it's unusable without spending \$ for new compressor (with labor)! DO NOT

WASTE YOUR MONEY!! Not only lost money on the cost of the freezer but had to throw away a lot of food!!

From the first day of receiving this freezer it doesn't work. After waiting 48 hours for the freezer to settle in place, we plugged it in and set the temperature. Each time, the freezer temperature gets hotter by the moment until near 90 degrees at which time we unplug it for a day to cool down and then we've tried again following instructions. Not working!

We have had our freezer for just over a year. It is used in a food bank at our church so maybe not as much usage as a commercial setting, but we have had no issues so far. We bought another unit 6 months ago and it has worked flawlessly as well. We are looking to buy a third and hope we have the same experience. Never contacted customer service so I can't speak to that, but the fit and finishes were all very nice.

Received defective, did not install early enough to know that there's something wrong with it. One week past the 30-day return period, even though it's new and not used, it's useless.

Horrible quality! This freezer arrived defective — the LED screen shows a temperature that never goes below zero Fahrenheit. Strangely, the meat seems somewhat frozen, but the ice cream melts. Something is clearly wrong with the cooling system. We submitted a warranty claim over a week ago and have heard nothing back.

Thank you for your review, Ping! It looks like the warranty provider has been in touch with you in regards to your claim. Please check the spam folder of your inbox or reach out to Customer Solutions if you have questions!

Notes & Details

Your establishment relies on refrigeration for proper food safety, and with this Avantco A-49F-HC 54" solid door freezer, you receive performance you can depend on! A painted aluminum interior with a 304 stainless steel floor gives you increased durability, while (2) 430 stainless steel doors and exterior sides give it a sleek appearance. For convenience, 6 epoxy coated shelves feature shelf clips for customization when desired.

Designed to maintain temperatures from -8 to -1 degree Fahrenheit, this freezer boasts a bottom-mounted 1 2/7 hp compressor that Uses R-290 refrigerant. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. In addition, the bottom-mounted design makes it easy for employees to load and unload products due to the raised bottom shelf. For optimal temperature retention, the entire cabinet is foamed-in place using polyurethane insulation. Other helpful features include stay open doors with locks, automatic defrosting, and a digital temperature control with digital display. This item requires a 115V electrical connection for operation.

1/4 hp Compressor

The 1/4 hp compressor not only draws in cooler air for energy efficiency, but also raises the bottom shelf, so you don't have to bend as much during loading and unloading. It circulates R290 refrigerant. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an environmentally-responsible choice for your business. Also, this unit has an automatic defrost cycle, so your staff doesn't need to spend valuable time clearing out ice.

Corrosion-Resistant Shelves

These adjustable shelves are coated with plastic to help keep out moisture and resist corrosion and rusting. Each unit comes with 6 shelves and 24 shelf clips, allowing you to place your shelves exactly where you need them to accommodate your small or large food products.

Digital Temperature Control

Digital temperature control allows you to easily adjust the temperature of your refrigerator's cabinet within its 33 to 40 degree Fahrenheit range. The controller is preprogrammed to keep the unit in the safety zone (below 41 degrees) to avoid any issues with health inspectors. Plus, the unit will automatically defrost 4 times a day to keep food fresh and properly chilled. The clear LCD readout also helps keep track of the unit's temperature.

i bought this refrigerator on 02/18/2022 and after a year having problems with it. it gets a lot of water on the bottom and i contacted webstaurant customer service and she told me the warranty passed and you need to contact other service company to service it and you bought something on lower price. i paid for it and i could get other brands like everest with 5 years warranty.

Five Stars for ease of the ordering process, competitive pricing, on-time professional delivery, and of coarse, this high quality beautiful refrigerator. Its got a simple design that's surprisingly rugged. It comes packaged in multiple layers of plastic wrap, styrofoam, industrial cardboard, and a wooded crate at the bottom for added protection of the castors. I believe that it would have to fall off the truck to get damaged because of how much protective packaging they encased it in. There is a lot of trash to throw away after unpacking it. Here's what you need to know... 1. Delivered via LTL semi-truck. You need to specify if you need the tailgate for delivery. 2. It comes on a wood pallet, so you'll need to tip it slightly to remove the pallet from underneath. 3. Unscrew the wooden crate from the bottom of the fridge to remove the crate. 4. Casters come attached and ready to roll. 5. **Read More** ›

We purchased 2 of these units and started having issues 6 months later with it not keeping temp. We called the warranty company and it's a phone tag game they play. We filed the claim after getting someone to finally communicate with us after 2 days then we were giving the excuse that someone would contact us back and it's been 2 weeks. We're running a daily business and once we made the call and file a claim on the product that they sold us a 3 year warranty why don't they have the serial number? They took our money why didn't the information that was sold to us get transferred to them? Another misleading opportunity for them to get you off the phone to prolong the situation. We still have no phone call back and our frig still isn't keeping temp because the warranty company has not honored their agreement. Purchase additional warranty at your own risk.

Fridge is great. Tracking did not work. Requested notice of delivery. This did not happen. It was delivered to my TN location in the middle of lunch. Tracking still showed it was in KY. Had to un box it and deal with installation at lunchtime. Not ideal, with no notice at all too.

I really like the looks and quality of this product. The Advantco brand seems like a very good company. I am using the product for our baker area. Keeps things cold and runs smoothly.

This Regency stainless steel heavy-duty wall shelf adds vertical storage space to your kitchen.

Keep food, dishes, or other small items from cluttering your work area with the Regency stainless steel heavy-duty wall shelf. Made with durable materials, this shelf is designed for use in the busiest restaurant, cafeteria, or other foodservice establishment. Because the support brackets attach directly to the walls, you can keep all your most used items within easy reach without taking up valuable counter space.

NSF Certified

This item is certified by NSF to applicable standards.

Durable Construction

To ensure this shelf can stand up to use in your busy establishment, it's made with 16 gauge 430 stainless steel with a #4 finish for durability and corrosion resistance. The solid welded corners and support brackets have the same finish for consistency.

Optimal Support

This shelf comes with support brackets, so you can rest assured that it will remain in place. This design gives you a high weight capacity to hold all your spices, small kitchen appliances, cleaning supplies, or ingredients. These brackets attach easily to the walls using the appropriate installation hardware (hardware sold separately).

Safe Design

All the raw edges are ground smooth, getting rid of any sharp or jagged lines to keep your staff members safe.

Easy to Clean

To keep your facility clean and sanitary, this stainless steel shelf is easy to clean and resists corrosion.

Defective welds on the threads of the 18x36" shelves. I bought 3, at least one thread stud on each shelf broke off before the nut even got tight, so it's certainly not an overtorque situation. I was sent 3 replacements and THE EXACT SAME THING HAPPENED ON ALL 3 REPLACEMENTS. I would avoid the 18x36 version of this shelf, all other sizes I have received have been fine.

This is a nice, sturdy shelf, good for general storage. My only problem with the shelf is that the brackets (which do come unattached to the shelf, fortunately) are meant to be a certain width apart, which didn't correspond to the studs in our wall; we had to drill more holes in the shelf so that we could have the brackets align. If I were to do it again, I'd find out how far apart the studs are, and buy a shelf accordingly.

For the most part these are great shelves. The only issues we had was when we were assembly it. We received one shelf with stripped screws. But webstaurant was able to re-order a shelf at no extra charge which we appreciated. When we received the new shelf the side panels were bent...this could've been an issue with shipping and not Webstaurant but we didn't want to go through another ordeal of getting a new shelf so we bended the panels as much as we could to its original position. Installing onto the wall was not too hard...just make sure you have at least one extra person helping you to get the leveling right. The shelves itself are nice. And can hold plenty of things.

They cant even send the correct brackets for the 18" depth shelves. Argued with the support chat for a half hour as they are not smart enough to realize they sent the wrong bracket that needs to line up with the slotted holes. I ordered some other lengths in the same depth and upon opening up the 36" shelf they sent brackets that were made for an 12" depth instead of the 18". I was confused until i opened up the 18x60 with the same depth and it fit perfectly on the 36x18.

Shelf could use one extra support bracket in the center. We will have to come up with a solution. We have analytical scales on the shelf and if there is a little extra weight in the center then it bows and the analytical scales are no longer level and can read incorrectly. One shelf had a cracked weld in the corner. Otherwise, for the price it works ok for our needs.

out of every thing that i have ordered through your store I am most disappointed with this shelf, It does not have enough support. should have had some kind of support in the middle of this shelf, and where the 2 sides are not welded to hold as support and just screwed on the end. they tend to bow, I only have 2 small microwaves on this shelf and it does not look to sturdy. this may have worked good if only needed to hold up stereofoam. I am gonna have to try and have someone make me some extra supports to help hold this up and take some pressure off of the 2 sides.

We appreciate your review, Lee. We wish this Regency wall shelf would have worked out for you. Our Customer Solutions team will remain in contact with you about this.

These shelves are perfect for replacing wire shelving. I needed shelving that is durable but easy to clean quickly. In my opinion, wire shelves have their place in food storage rooms. If your looking for something that wipes clean with one swipe in a kitchen and hate trying to get sticky grease from in-between wire shelving units, this will serve you well. We installed ours in the kitchen near the ceiling, around the perimeter of the room to store large items that we need to reach quickly such as cases of ice cream cones. Yes they are more expensive but it will pay for itself by lowering your frustration level and employees time cleaning.

Regency offers a variety of table accessories to help declutter your workspace!

Regency's overselves and underselves attach to your work table for convenient added storage. Coming in a variety of sizes to fit your table, the adjustable underselves allow you to move them to your desired height. You can even add multiple underselves for more storage.

The overselves come in a single or double deck design, letting you control your shelf space. These shelves are easy to install, and keep your spices, towels, bowls, and containers within arm's reach.

You can also add a stainless steel drawer to your work table to store your most used tools. The drawers come in fifteen or twenty inch lengths, and feature a durable design. They have ball-bearing slides for smooth use, and are even safe to stack up to two or three drawers high!

The pot rack and bun pan rack allow you to save space and keep items out of the way. Regency offers an overself-mounted pot rack as well as a leg-mounted pot rack. Each rack comes with six double prong hooks to hold pots in place.

The aluminum bun pan rack fits on thirty and thirty six inch wide work tables, and has a six pan capacity. This rack is great for kitchens that could use added pan storage, without the need for a full-size pan rack. It features a durable aluminum construction with six sets of slides to hold sheet pans three inches apart. For improved mobility, Regency offers a variety of casters. Additionally, WebstaurantStore provides a custom cut-down service to tailor table height to your needs. After selecting table, height, and casters, we will correctly cut the table legs. No matter how busy your kitchen may be, you can rely on accessories from Regency to help keep your work tables organized!

Order was shipped and received promptly. Problem was when I opened the box and pulled out the panels there was a medium size dent on the corner on the lower shelf. This dent was due to a round circle mark from the bottom side of the shelf in a three inch diameter circle. Protective tape on top side looked good. Pulled the top shelf out and immediately saw two dents about one third the way down the table. Both dents were about one and a half inches long and there were no visible dent marks in protective tape on top.. I know you get what you pay for but I would not complain if I put the dents in. Would not recommend this table unless you are going to cover the top.

Thank you for the review, Dennis! We're sorry that the work table you received had a few dents. A Customer Solutions Representative will be in touch with you shortly about this.

Arrived in perfect condition, just what I asked for. Love how tall the levelling feet are; they allow you to get the table to a maximum height. Wish the tables were closer to countertop height but the feet will get you up to 34" without feeling flimsy or wobbly. Helps to have two, side by side and pushed against a wall for optimal sturdiness. The instructions are a little bewildering. They ask you to slide the undershelf down over the positioned legs. However, assembled upside down as it is, the legs have a curved segment where they join the feet. This makes it impossible for the undershelf to fit onto the legs from this direction. I had to remove the legs, then stack the undershelf

on top of the tabletop, line up each leg space, place each leg through both holes, secure the set screws inside the table top, **Read More** ›

Unlike some reviews I have seen, my table arrived in great condition and had no dents to the work surface. Overall I am extremely pleased with the table and glad I went for the 16 gauge over the 18. The table has not dented or warped even after pounding out many pork cutlets. The only thing I wish was better was that it was a bit more stable. I suspect the narrow feet may be the culprit and am curious to see if I can improve this at all. Overall I would definitely recommend this table to anyone looking for more counterspace in their kitchen.

I would recommend getting the regular 33" cart (table with 28" legs and casters) because I wanted 36" to match an island and pontied the cut-down. If you can't get your "customised" table you ordered - all of it, just buy the regular cart/table with casters included. It also assembled pretty poorly. These rails the leg collars fit into are not precision located so, yes, I assembled it with aid of a rubber mallet, but even with the slop in these collars/sockets - they absolutely did not line up properly. You tend to get what you pay for, except for the adjustable feet. I guess I left a tip... What I got was 36-1/2" tall and was shorted my 4 adjustable feet. I ordered a table with feet, the reduction and 4 casters. Where are my feet? I'll trade you my 4 - 1/2" extra tall "bonus" length for my missing feet.

Well used for over one year and the worktop is still very nice. The initial help with customer service to set this up was smooth. Highly customizable to gain additional storage and maximize the usage, plus very sturdy, cleans easily (huge plus!), and

does not wobble due to adjustable feet. Overall highly recommend, easy installation and this is a high quality item. Would purchase again.

Table itself is great. The wheels came with additional shorter legs that were harder to attach and there is no way to permanently attach the wheels to them. There are no additional screws or or any holes in the legs to keep the wheels in place. You basically just set the table on the casters but they do not connect so if the table needs to be lifted, the wheels fall off.

This Regency stainless steel heavy-duty wall shelf adds vertical storage space to your kitchen.

Keep food, dishes, or other small items from cluttering your work area with the Regency stainless steel heavy-duty wall shelf. Made with durable materials, this shelf is designed for use in the busiest restaurant, cafeteria, or other foodservice establishment. Because the support brackets attach directly to the walls, you can keep all your most used items within easy reach without taking up valuable counter space.

NSF Certified

This item is certified by NSF to applicable standards.

Durable Construction

To ensure this shelf can stand up to use in your busy establishment, it's made with 16 gauge 430 stainless steel with a #4 finish for durability and corrosion resistance. The solid welded corners and support brackets have the same finish for consistency.

Optimal Support

This shelf comes with support brackets, so you can rest assured that it will remain in place. This design gives you a high weight capacity to hold all your spices, small kitchen appliances, cleaning supplies, or ingredients. These brackets attach easily to the walls using the appropriate installation hardware (hardware sold separately).

Safe Design

All the raw edges are ground smooth, getting rid of any sharp or jagged lines to keep your staff members safe.

Easy to Clean

To keep your facility clean and sanitary, this stainless steel shelf is easy to clean and resists corrosion.

Defective welds on the threads of the 18x36" shelves. I bought 3, at least one thread stud on each shelf broke off before the nut even got tight, so it's certainly not an overtorque situation. I was sent 3 replacements and THE EXACT SAME THING HAPPENED ON ALL 3 REPLACEMENTS. I would avoid the 18x36 version of this shelf, all other sizes I have received have been fine.

This is a nice, sturdy shelf, good for general storage. My only problem with the shelf is that the brackets (which do come unattached to the shelf, fortunately) are meant to be a certain width apart, which didn't correspond to the studs in our wall; we had to drill more holes in the shelf so that we could have the brackets align. If I were to do it again, I'd find out how far apart the studs are, and buy a shelf accordingly.

For the most part these are great shelves. The only issues we had was when we were assembly it. We received one shelf with stripped screws. But webstaurant was able to re-order a shelf at no extra charge which we appreciated. When we received the new shelf the side panels were bent...this could've been an issue with shipping and not Webstaurant but we didn't want to go through another ordeal of getting a new shelf so we bended the panels as much as we could to its original position. Installing onto the wall was not too hard...just make sure you have at least one extra person helping you to get the leveling right. The shelves itself are nice. And can hold plenty of things.

They cant even send the correct brackets for the 18" depth shelves. Argued with the support chat for a half hour as they are not smart enough to realize they sent the wrong bracket that needs to line up with the slotted holes. I ordered some other lengths in the same depth and upon opening up the 36" shelf they sent brackets that were made for an 12" depth instead of the 18". I was confused until i opened up the 18x60 with the same depth and it fit perfectly on the 36x18.

Shelf could use one extra support bracket in the center. We will have to come up with a solution. We have analytical scales on the shelf and if there is a little extra weight in the center then it bows and the analytical scales are no longer level and can read incorrectly. One shelf had a cracked weld in the corner. Otherwise, for the price it works ok for our needs.

These shelves are wonderful. They are sturdy and hold quite a bit. We bought many sizes for different areas of our kitchen. We would recommend them for any restaurant needing shelf space.

The Regency 96" Long Stainless Steel Shelf is very Heavy Duty and built well. It is very easy to mount and can easily be hung in most areas of the kitchen. Many of our

customers prefer them hung above the cooking line for their fried foods to be put into a warming pan coming out of the fryer.

out of every thing that i have ordered through your store I am most disappointed with this shelf, It does not have enough support. should have had some kind of support in the middle of this shelf, and where the 2 sides are not welded to hold as support and just screwed on the end. they tend to bow, I only have 2 small microwaves on this shelf and it does not look to sturdy. this may have worked good if only needed to hold up stereofoam. I am gonna have to try and have someone make me some extra supports to help hold this up and take some pressure off of the 2 sides.

We appreciate your review, Lee. We wish this Regency wall shelf would have worked out for you. Our Customer Solutions team will remain in contact with you about this.

These shelves are perfect for replacing wire shelving. I needed shelving that is durable but easy to clean quickly. In my opinion, wire shelves have their place in food storage rooms. If your looking for something that wipes clean with one swipe in a kitchen and hate trying to get sticky grease from in-between wire shelving units, this will serve you well. We installed ours in the kitchen near the ceiling, around the perimeter of the room to store large items that we need to reach quickly such as cases of ice cream cones. Yes they are more expensive but it will pay for itself by lowering your frustration level and employees time cleaning.

Frequently Asked Questions From Customers

Can I put equipment on my work table?

Please refer to the "top capacity" listed in the specs table before placing any equipment on the work table. Do not put equipment on the table that exceeds the weight capacity. Keep in mind that this table is designed to hold an evenly distributed load—a single heavy piece of equipment may be too much for the table, even if it does not exceed the unit's top capacity.

Lay the table face down on a smooth surface to protect it from scratching. Align the unistrut with the threaded inserts. Secure the unistrut to the table using the provided screws. Make sure both uni struts are securely screwed in. Take the spring clips and place them into the unistrut. Turn them counterclockwise to secure them in place on the drawer. Align the threaded screw holes on the top with the Z. Screw the drawer into the Z brackets to install the drawer. Align the Z brackets over the spring clips on the tabletop bottom. Tighten the Z brackets into the threaded spring clips on the unistrut. You can now flip the table over and use your regency spec line. Easy attached table.

We moved into a new house and I needed a kitchen island. Ordered this 24 x 48" 14-gauge stainless steel open base work table and it works perfectly. Room for stools under it. Good and sturdy. Matches my fridge. It looks like it came with the kitchen. So happy with this table. It is very useful. Would definitely recommend.

Notes & Details

Keep your most popular sides and entrees hot and ready to serve with the ServIt WDSFS-2 double freestanding drawer warmer! This warmer features 900 watts of heating power and two drawers that accommodate a full size 12" x 20" x 6" food pan in each drawer that you can fill to the brim with a variety of hot foods. There are also pan supports to accommodate different compatible sizes of food pans in this warmer. The durable, full stainless steel construction makes sure that this drawer warmer will stand up to frequent use while the 1" thick fiberglass insulation and built-in drawers gasket keeps the heat inside for efficient use.

The unit's freestanding design allows it to be easily installed almost anywhere in your kitchen, and its 11 gauge drawers slide on 14 gauge slide brackets to help ensure long-lasting durability. Recessed thermostatic temperature controls for each drawer, an indicator lamp, and vent controls allow you to efficiently adjust this warmer to properly keep your best foods hot and ready to eat. The vent control allows ultimate control over airflow for foods to be kept dry, or can be closed to restrict airflow to keep foods moist. The thermostatic controls will automatically turn back on when there is a 3 to 10 degrees Fahrenheit drop in temperature. This drawer warmer boasts a wide temperature range between 80 and 220 degrees Fahrenheit, allowing you to keep a variety of foods at safe temperatures all day. This unit requires a 120V electric connection.

Size: Double Standard Freestanding

I have two of these and I've had some issues with both of them. All the handles have come off and I had to Loctite them back on. I should've done that in the beginning but that's a lesson learned. The temperature dials come off real easy since it's just held on by a small set screw. Even tightening them down as tight as I can, they still slide off so one of my guys just left them both off and uses his fingers to turn the the metal stem. One of the drawers has stopped warming. I'm hoping it's just the heating element and that it's easily replaceable. I've learned from my ServIt steam table that you need to keep spare heating elements on hand since they do burn out once a year or so. I need another 2-drawer warmer right now and I think I'm going to spend the extra money and try the Alto-Sham. It has digital controls and the handles seem to be more durable.

Size: Double Standard Freestanding

Purchased this item and within a couple of months, the bearings that hold the drawers up fell off. Warming part works great but can't say much for the design...can't

close drawers all the way because of missing parts that fell off.

Size: Double Standard Freestanding

This warmer works perfectly to keep our biscuits hot and moist at one temperature, then our muffins at a difference temperature. It is the right size to keep a gravy warmer and some plate stacked on top. No issues and very easy to operate. Unit came easily to just take out of box and plug in.

It's mobile. It's great. You can maneuver this warmer wherever you need it. It's designed to hold three drawers which helps keep your food organized. Add labels

outside so you know which drawer holds what and you're set!
