

STAUNTON
VIRGINIA
COMMUNITY DEVELOPMENT
Engineering Division

Dear Neighbor:

The City of Staunton invites you to a neighborhood meeting to learn about plans for an upcoming Central Avenue streetscape improvement project and share your thoughts.

We will host the meeting at **5:30 p.m., Thursday, June 20, 2019, at Growing Together Fellowship Church**, located at 261 North Central Avenue.

The Central Avenue streetscape project is designed to enhance the overall appearance of Central Avenue from Frederick Street to Pump Street, continuing the City's investment in the creation of a vibrant, revitalized downtown. Proposed improvements for this portion of Central Avenue include moving aerial utilities underground, installing brick crosswalks, sidewalks and historic street lighting, and landscaping.

The City is planning to advertise the project for construction this summer and would like to present the plans to you and hear your perspective before the project begins. Below is a photo of the Churchville Avenue Streetscape which shows similar improvements to those planned for Central Avenue.

For more information, please contact Nickie Mills, City Engineer at 540-332-3858 or millsnd@ci.staunton.va.us, or visit the Engineering Division of Community Development on the 3rd floor of City Hall, 116 W. Beverley Street.
