

In an effort to serve as a direct resource for Virginians facing COVID-19-related challenges, The Virginia Department of Social Services has launched COVID-19 Virginia Resources, a mobile app and dedicated website to provide a one-stop switchboard for many of the benefits, resources and programs Virginians need most right now.

Visit COVID.Virginia.gov or download the mobile app (available in the App Store today - Google Play coming soon!) to get streamlined access to actionable resources, including food assistance, health care, child care, Virginia tax guidance, paid sick leave and furlough obligations for businesses, and more.
